The Mayoral Committee aspires to the vision of the City geared at ensuring that Buffalo City becomes a people centred place of opportunity where the basic needs of all are met in a safe, healthy and sustainable environment.

The City is committed towards improving the lives of our people and transforming them from their current unjust socio-economic conditions to positive development and ultimately prosperity.

This is achievable through delivering quality services promptly and efficiently.

In this month, the Mayoral Committee have been presiding over Integrated Development Plan Budget hearings and have been getting face hand value of what the challenges facing the City are from residents at the various wards. This experience will be needed when tackling the issues of poverty and service delivery as we march towards a better life for all.

The City welcomes the appointments and wishes the Mayoral committee all the best.
