

**STATEMENT OF FINANCIAL PERFORMANCE AND THE IMPLEMENTATION
OF THE 2019/20 BUDGET FOR THE PERIOD ENDED 30 SEPTEMBER 2019**

1. PURPOSE

The purpose of the report is for Executive Mayor to consider and note the statement of financial performance and the implementation of the 2019/20 budget of the Buffalo City Metropolitan Municipality for the period ended 30 September 2019.

2. AUTHORITY

Executive Mayor.

3. LEGAL / STATUTORY REQUIREMENTS

3.1. The Constitution of the Republic of South Africa, 1996

3.2. Municipal Finance Management Act No 56, 2003 Chapter 7, Section 71

3.3. Municipal Budget and Reporting Regulations, 2009

4. BACKGROUND

In terms of Section 71 of the Municipal Finance Management Act No 56, 2003, *“the Accounting Officer of a municipality must by no later than 10 working days after the end of each month submit to the Mayor of the municipality and the relevant provincial treasury a statement in the prescribed format on the state of the municipality’s budget”*.

According to the Municipal Budget Reporting and Regulations (MBRR), 2009, *“the monthly budget statement of a municipality must be in a format specified in Schedule C and include all the required tables, charts and explanatory information taking into account any guidelines issued by the Minister in terms of S168(1) of the Act”* (MFMA).

This report follows the legislative requirements of the Municipal Budget and Reporting Regulations (Schedule C format).

PART 1: IN-YEAR REPORT

5. RESOLUTIONS

It is recommended that:

- (i) The Executive Mayor considers and notes the report on the statement of financial performance and the implementation of the 2019/20 budget for the period ended 30 September 2019 including supporting documentation attached as Annexure A to F.

- (ii) The Executive Mayor notes the spending trend on capital and operating projects as well as the reasons for such an expenditure as indicated in section 14 and 15 respectively of this report.

- (iii) The Executive Mayor notes the year to date collection rate for the period ended 30 September 2019 of 81.54%.

Current ratio	1.96:1	Total overtime paid (YTD)	R 34,003,343
Total Debt to Revenue	6.22%	Allowances and benefits – Councillors (YTD)	R 15,357,167
Capital Charges to Operating Expenditure	0.94%	Salary bill – Officials	R 531,422,864
Cost coverage ratio	1.68 months	Workforce costs as a % of expenditure	27.92%

6.2. Liquidity position

Buffalo City Metropolitan Municipality's liquidity is considered stable as the Current Ratio is 1.96:1 which indicates the ability of municipality's current assets to cover its current liabilities. This is within the norm of 1.5-2:1. The City can easily meet its immediate obligations, however, the stagnant revenue base and high rate of increase in operating costs is a threat to the City's cash position. This ratio denotes that the City can meet its short term liabilities and is within the norm.

The graph below shows comparison of the current ratio for the current financial year and the two previous financial years.

Figure 1: Current Ratio

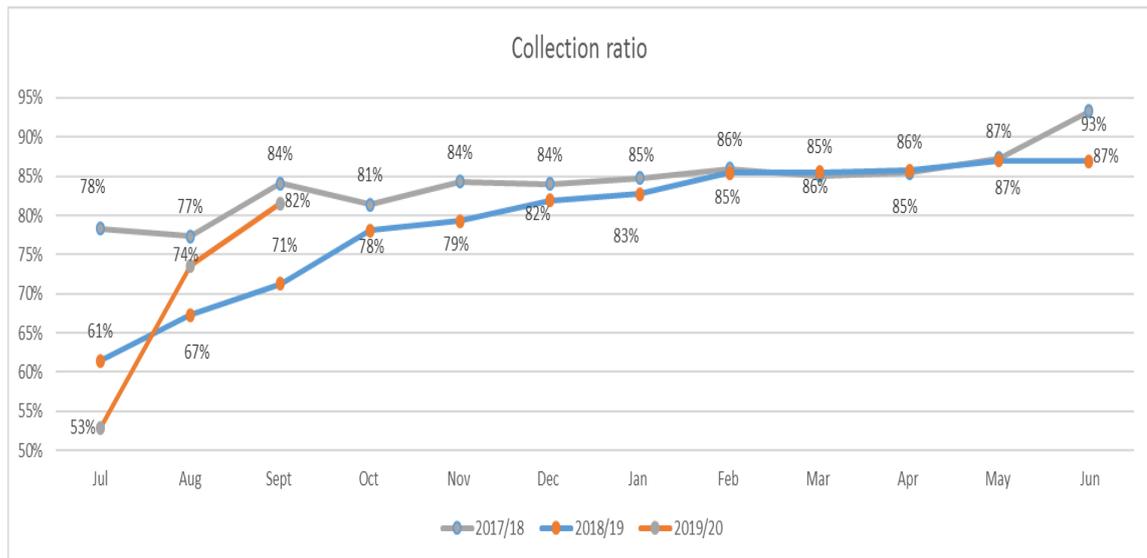

6.3. Collection Rate and Outstanding Debtors

The year to date collection rate for the month ended 30 September 2019 is 81.54% (2018/19: 71.26%). This ratio denotes the City's ability to collect the billed revenue from its consumers. The collection rate has increased by 7.98% from last month where 73.56% was achieved for the period ended 31 August 2019.

The graph below shows comparison of the monthly collection ratio for the current financial year and the two previous financial years.

Figure 2: Collection Ratio

Total gross debtors book (including current accounts) as at 30 September 2019 amounts to R2.22 billion (2018/19: R2.06 billion). Households: R1.54 billion, Business: R606.40 million and Government: R76.78 million.

Refer to section 8.1 of the report for details on debtors' management. The debtors' age analysis report is reflected on Annexure B – SC3.

6.4. Capital Expenditure

BCMM has spent 7% (R145.87 million, inclusive of reclaimed vat) of its 2019/20 capital budget of R1.95 billion as at 30 September 2019. This reflects a slight improvement in rand value terms when compared to the same period in the previous financial year where 7% (R133.10 million, inclusive of reclaimed vat) of the budget of R1.99 billion was spent. It is expected that the expenditure will improve in the second quarter as procurement processes for major contracts would have been concluded. (Refer to Section 14 for further details).

A detailed schedule of the capital projects expenditure is outlined in **Annexure E**.

6.5. Operating Projects

The Metro has spent 6% (R27.22 million, inclusive of reclaimed vat) of its 2019/20 operating projects budget of R466.26 million as at 30 September 2019. This reflects a slight decline in percentage terms when compared to the same period in the previous financial year where 8% (R26.11 million, inclusive of reclaimed vat) of the operating projects budget of R333.73 million was spent. It is expected that the expenditure will improve in the second quarter as procurement processes for major contracts would have been concluded. (Refer to Section 15 for further details).

A detailed schedule of the operating projects expenditure is outlined in **Annexure D**.

6.6. Expenditure on Conditional Grants (DoRA Allocation)

The Metro has spent 9% (R98.25 million, inclusive of reclaimed vat) of its 2019/2020 conditional grants budget of R1.09 billion as at 30 September 2019. This reflects a slight decline when compared to the same period in the previous financial year where 10% (R92.65 million, inclusive of reclaimed vat) of conditional grants budget of R911.61 million was spent. It is expected that the expenditure will improve in the second quarter as procurement processes for major contracts would have been concluded. (Refer to Section 11 for further details).

6.6.1. Urban Settlement Development Grant (USDG) funded projects

BCMM has spent 8% (R67.83 million, inclusive of reclaimed vat) of its 2019/2020 USDG budget of R817.42 million as at 30 September 2019. This reflects a decline when compared to the same period in the previous financial year where 11% (R85.37 million, inclusive of reclaimed of vat) of USDG budget of R762.99 million was spent. It is expected that the expenditure will improve in the second quarter as procurement processes for major contracts would have been concluded. (Refer to Section 11 for further details).

6.7. Cash and Cash Equivalents

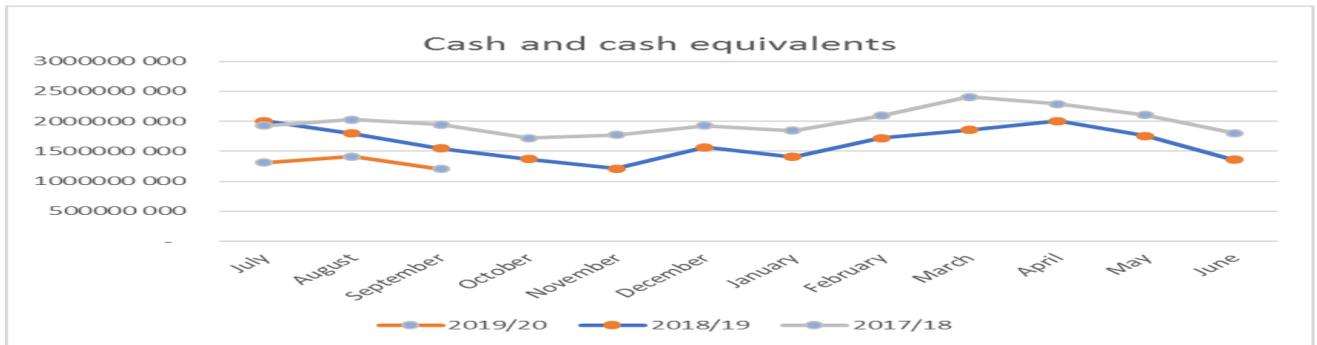

The cash and cash equivalents of the City as at 30 September 2019 are R1.21 billion made up of cash at the primary bank account amounting to R122.41 million and call investment deposits of R1.09 billion. This funding is invested with various financial institutions in compliance with the MFMA.

The City's cash reserves has decreased due to the City vigorously investing in its asset renewal and upgrading program that is funded by its own funding. This is an indication of the City's commitment in addressing the aging infrastructure and ensuring that cash reserves are re-invested into infrastructure assets. The decrease in cash reserves is also caused by the non achievement of the targeted collection rate of 92.5%. Refer to Section 7.4.5 and Annexure A – C7 for the cash flow statement as well as Section 10 and Annexure B – SC5 for the investment portfolio breakdown.

The cost coverage ratio of the City is 1.68 months. This ratio indicates the municipality's ability to meet at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue during that period. This ratio denotes that the City can meet its monthly operating commitments 1.68 times, which is within the norm of 1-3 months as per the MFMA circular 71. It is however a concern to note that the City's cash and cash equivalent reserve is decreasing due to stagnant revenue base and operating expenditure that is increasing at a high rate. There has also been high capital investment that is funded by internally generated funds.

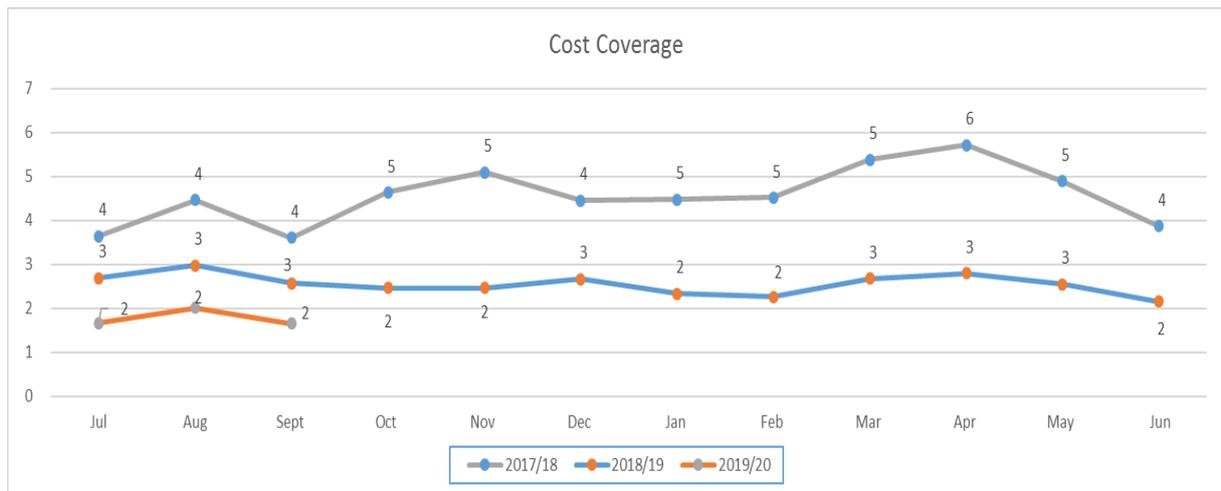

The graph below shows comparison of the monthly cash and cash equivalents over the 3-year period.

Figure 3: Cash and Cash Equivalents

The graph below shows comparison of the monthly cost coverage for the current financial year and the two previous financial years.

Figure 4: Cost Coverage

6.8. Outstanding Creditors

The creditors payment period has decreased to 18 days, this shows that the Metro is paying its creditors within 30 days as stipulated by the MFMA. Small Micro Medium Enterprises (SMME) are paid on a fortnightly basis to assist emerging service providers. Refer to Section 9 for details.

6.9. Long-Term Debt Profile

The total long term borrowings of the municipality as at 30 September 2019 amounts to R335.90 million. Refer to Annexure C for the schedule of borrowings.

The ratio of capital charges to operating expenditure as at 30 September 2019 is 0.94%. This ratio assesses the level of capital charges / interest charges to operating expenditure. The norm as per the MFMA circular 71 is between 6 and 8%.

The total debt to revenue ratio is 6.22% as at 30 September 2019, this indicates the extent of total borrowings (short and long term debt financing) in relation to total operating revenue of the municipality. The purpose of the ratio is to provide assurance that sufficient revenue will be generated to repay liabilities. The outcome is below the norm. This indicates that the municipality has capacity to take on additional financing from borrowing to invest in infrastructure projects. BCMM is in the process of considering new loan funding which will move this ratio closer to the National Treasury norm of 45%.

7. IN-YEAR BUDGET STATEMENT MAIN TABLES

7.1 Monthly Budget Statement Summary

The table below provides a high-level summation of the Metro's financial performance, capital expenditure, financial position, cash flow, debtors and creditors analysis.

7.4.1 ANALYSIS OF STATEMENT OF FINANCIAL PERFORMANCE

The explanation below pertains to all variances in excess of 10%.

7.4.1.1 Property Rates

The variance is due to the billing of rates for the full year for some properties (mostly government properties) as requested by property owners. The variance will stabilize as the year progresses.

7.4.1.2 Service Charges – Refuse

The Revenue Department is currently reviewing the entire billing vs property population in an attempt to identify gaps in the billing and resolution thereof.

7.4.1.3 Interest earned - external investments

The decrease in cash reserves that is mainly caused by the low collection rate when compared to the set targets, is having a negative impact on interest earned on external investments.

7.4.1.4 Interest earned – outstanding debtors

The variance is as a result of the debtors book that is increasing due to non-payment of debtors despite the daily credit control action that is implemented. The increase in debtors results in an increase in interest charges.

7.4.1.5 Fines, penalties and forfeits

The material variance in Fines & Penalties is caused by the following factors:

- (i) Cases are struck of the Court Roll.
- (ii) Tracing offenders is a challenge due to people not updating their particulars i.e. address etc. when relocating.
- (iii) Buyers of vehicles not registering their vehicles in their name thus details are not updated to new owners details which makes it difficult to trace traffic offenders

Corrective Measure: Traffic Department to increase its operations &

roadblocks to get offenders to pay for their traffic fines.

7.4.1.6 Licences and permits

The actual income earned from licences and permits is more than the year to date budget due to an increase in driver's and learners licence applications; and roadworthy examinations. Income for license and permits is demand driven and therefore difficult to predict accurately.

7.4.1.7 Agency services

Under collection or decrease in revenue can be attributed to the fact that vehicle licences can be renewed at the Post Office and the Department of Transport directly. Members of the public generally go to the closet convenient point in order to pay which may not always be BCMM. It must further be noted that certain Banks now offer the same services.

7.4.1.8 Gains on disposal of PPE

The variance is as a result of proceeds from the sale of redundant assets which was not budgeted as past trend reflect that we incur net loss on disposal of assets.

7.4.1.9 Depreciation & asset impairment

The variance is due to the fact that the City is using revaluation model to value its infrastructure assets which result in huge depreciation expenditure. The change of valuation model is still under consideration.

7.4.1.10 Finance charges

Finance charges have not been incurred on the new projected loan due to no drawdown on this new facility to date. Once capital expenditure is incurred together with associated finance charges this variance will correct itself to be in-line with the budget for finance charges.

7.4.1.11 Other materials

The variance is due to inventory materials and supplies that have fluctuating demand. The situation is being monitored.

7.4.1.12 Transfers and Subsidies

Transfers and grants are paid at predetermined intervals according to the existing contractual agreements. These payments are therefore not made at a constant rate throughout the year.

7.4.1.13 Other expenditure

Other expenditure is made up of numerous miscellaneous items (e.g. printing & publications, operating leases: machinery and equipment, professional bodies membership and subscriptions, travel and accommodation, insurance premiums, etc.).

The main contributing items to the variance are the following:

- i. Insurance premiums – annual payment made to insure all the Metro's assets and liabilities.
- ii. Hired plant - hiring of compactor trucks to supplement the shortage of staff at solid waste department. Recruitment process for the appointment of seven (7) drivers has been started. Appointment of the drivers will reduce the hiring of compactor trucks.

7.4.2 Repairs and maintenance

Table 6 below reflects that as at 30 September 2019, the repairs and maintenance expenditure is 19% of the budget of R392.58 million (2018/19: 19%). Refer to Annexure B: SC13c (repairs and maintenance by asset class).

7.4.4 Monthly Budget Statement – Financial Position

The table below reflects the financial position of the Metro. It is good to note that the Metro is having excess assets over liabilities resulting into the net worth of R20.97 billion as per statement of financial position. Consumer debtors and other debtors are reflected net of impairments as per the statement of financial position.

8.1.1. Additional debtors' information

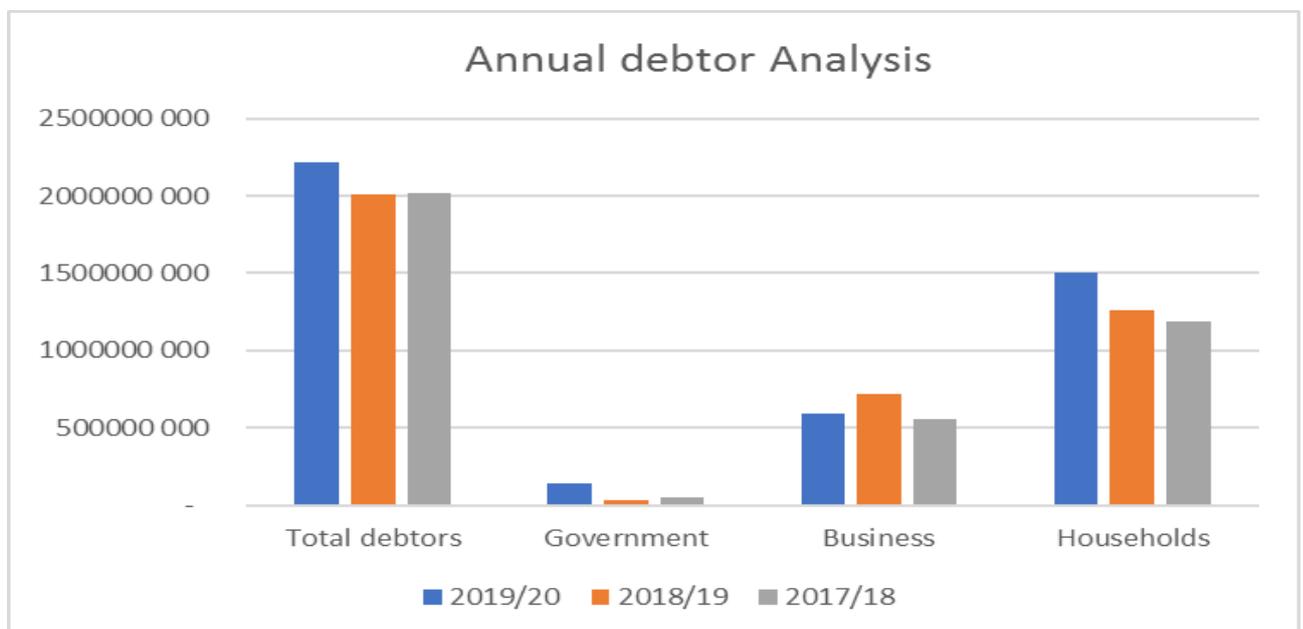

The total debtors book, which includes all charges excluding VAT, amounted to R2,221,168,219 as at 30 September 2019 which is an increase of R5,256,653 over the amount of R2,215,911,566 as at 31 August 2019.

During the month, Credit control action and debt collection action was implemented. Challenges that the metro experienced during the month which continue to affect revenue collection are as follows:

- a) Illegal connections / Meter Tampering;
- b) Poor network connectivity to the outline regions specifically to the Inland Region and Midland Region;
- c) Illegal reconnections by customer's where the supply is self reconnected without the payment.

The graph below shows comparison of annual movements in debtors of the 3 year period.

Figure 4: Debtors age analysis over the 3 year period

8.2. Additional debtor's information.

8.2.1. Age Analysis per Category

Table 11 below details debtors age analysis by income source as at 30 September 2019. It also provides comparison with the previous month (31 August 2019) which indicates an increase from R2.21 billion to R2.22 billion.

Table 11: Debtor's Age Analysis by Income Source Comparison

8.2.2. Age Analysis per Category

Table 12 below details debtors age analysis per category type as at 30 September 2019. It also reflects the percentage split per category with domestic consumers having the highest share followed by business. Please note that the financial system is not able to produce a collection ratio per category, however the collection ratio is reported on total debtors.

Table 12: Age Analysis per Category Type

CATEGORY TYPE	CURRENT	30 DAYS	60 DAYS	90 DAYS	120 DAYS+	Total	% Share
Domestic	140 317 092	61 178 385	43 172 004	31 695 504	1 194 583 140	1 470 946 124	66.22
Indigent	14 678 532	10 662 958	8 840 568	5 881 193	22 951 782	63 015 032	2.84
Business	175 423 967	46 503 539	39 895 288	19 139 356	325 441 896	606 404 046	27.30
Government	44 429 259	12 913 742	8 465 023	2 069 960	8 905 057	76 783 040	3.46
Municipal Staff	1 679 613	363 365	207 556	126 075	1 549 564	3 926 173	0.18
Councillors	60 867	7 722	3 420	579	21 213	93 800	0.00
Total	376 589 330	131 629 709	100 583 859	58 912 671	1 553 452 650	2 221 168 219	100.00

Note*: A stop order deduction is implemented for all municipal staff and councillors in arrears. When new staff join the employ of the municipality in many instances there is services debt, and therefore the arrears will be liquidated over an acceptable period of time, in terms of the Credit Control Policy. The reason why the debt reflects in the 30/60/90 day columns relating to staff and councillors is due to the fact that when the stop orders are receipted the payment is allocated to the oldest ageing category. In terms of the accounting treatment of the amounts received, within the financial system the amounts are allocated against the oldest debt first resulting in the outstanding balance as reflected in the above table.

During the month of September 2019 a total of R1,774,435.07 was receipted against staff and councillors accounts. The amount was allocated as follows:

Current Billing Receipts	R 1,432,629.75
Arrears Receipts	<u>R 341,805.32</u>
Total Receipts	<u>R 1,774,435.07</u>

Billing related queries such as water leaks prevent the debt from decreasing until it is resolved.

8.2.3. Government Accounts

The total arrears owed by Government Departments to Buffalo City Metropolitan Municipality as at 30 September 2019 amounted to R76,783,040 and this is a decrease of R15,805,380 when compared to 31 August 2019.

The breakdown of the arrears per department (excluding accounts in credit) are indicated in the table hereunder, as at 30 September 2019.

Table 13: Analysis of Government Debtors

DEPARTMENT	PROPERTY RATES	SERVICES	ARREARS AS AT 30 SEPTEMBER 2019	ARREARS AS AT 31 AUGUST 2019	DIFFERENCE
National Department Of Public Works	8 076 848	5 016 584	13 093 432	13 701 166	(607 735)

11.1 Expenditure On Conditional Grants (DoRA Allocation)

The Metro has spent 9% (R98.25 million, inclusive of reclaimed vat) of its 2019/2020 conditional grants budget of R1.09 billion as at 30 September 2019. This reflects a slight decline when compared to the same period in the previous financial year where 10% (R92.65 million, inclusive of reclaimed of vat) of conditional grants budget of R911.61 million was spent. It is expected that the expenditure will improve in the second quarter as procurement processes for major contracts would have been concluded.

Table 18 below reflects the year to date expenditure on 2019/20 total conditional grants.

Table 18: Spending per Conditional Grant Funding Allocation

Funding/Grant	2019/20 Adjusted Budget	YTD Expenditure (vat) R	YTD Variance (vat incl.) R	% Expenditure (vat incl.)
Finance Management Grant	1 000 000	102 266	897 734	10%

TOTAL	1 092 028 000	98 248 870	993 779 130	9%

Comments on performance of programmes that are implemented by the above funding are detailed below.

Details of the projects that are implemented by each grant are reflected in both Annexure D and E.

Also refer to section 14.1 of the report on measures to improve expenditure performance.

11.1.1. FINANCE MANAGEMENT GRANT (FMG)

There are currently four (4) interns serving on the internship programme. The interns are being remunerated accordingly. A recruitment process to advertise for four (4) additional intern positions has already been started as the target for the current financial year is to have at least eight (8) interns. Grant funding is being utilized in line with the set targets.

11.1.2. INFRASTRUCTURE SKILLS DEVELOPMENT GRANT (ISDG)

Low expenditure can be attributed to the fact that recruitment process for 6 new interns is still underway. Late submission of claims by mentors have also contributed to low expenditure. Procurement of 6 laptops for the interns is also underway.

11.1.3. URBAN SETTLEMENT DEVELOPMENT GRANT (USDG)

Spatial Planning and Development

a) Bridge Designs & Implementation:

Two bridges have been identified for construction in the current financial year. A contractor has been appointed to construct the first bridge and is expected to commence in October 2019. Designs for the second bridge have been submitted to Department of Economic Affairs, Environment and Tourism for environmental approval as approval is required before implementation can commence. Public consultation for the environmental approval has been concluded and BCMM is currently awaiting the final approval. For the first bridge, a requisition has been submitted for the appointment of a Contractor from the annual contracts. Expenditure is expected to improve as a contractor has been appointed and on site for the first bridge and for the second bridge once approval has been granted.

b) Taxi Rank Infrastructure:

The bid for the Upgrading of Ginsberg Rank is at the procurement stage. Expenditure will improve once the service provider is appointed.

c) Taxi/Bus Embayment:

Process of appointing a service provider is in progress and expenditure will improve once the service provider has started construction.

d) Traffic Signals:

Contractor is finalizing civil works, expenditure will improve once the civil works have been finalized.

Infrastructure Services

a) Roads & stormwater:

The projects are yet to commence on site as orders are still to be generated. The process of project identification is complete. Project estimates have been completed and requisitions have been prepared for the work. Work will start as soon as the orders have been received. Majority of orders are expected in October 2019.

b) Water:

Process of appointing a service provider is in progress and expenditure will improve once the service provider has started construction.

c) Sanitation:

The three main reasons for low expenditure on USDG funded projects at the end of September 2019 are the following:

- i. Some of the projects will be implemented using annual contracts, namely, remedial works to Hood Point Marine Outfall Sewer, Ablution Facilities, and Mdantsane Sanitation. Requisitions for appointment of Contractors have been submitted for Ablution Facilities and contractors are on site for some of the requested work.
- ii. Priced estimates have been received from consulting engineers for Hood Point and Eastern Beach Sewers, however, the estimates are above the available budget. The department is revising the scope of

work that can be made with available budget; and this should be concluded before the end of October 2019.

- iii. There are delays in concluding capacity assessments for Berlin Sewers Phase 3, resulting in delays in finalization of detailed designs. Similarly, there are some remedial work to be completed in Phase 2 following termination of a contract with the Contractor.

Meetings have already been arranged with consulting engineers for Berlin Sewers, Hood Point, and Eastern Beach Sewers, to speed up the completion of designs Berlin Sewers, and revise the scope of work for Hood Point and Eastern Beach Sewers respectively.

d) Electricity:

Projects have just commenced, expenditure will improve as projects progress. Street Lighting & Highmast phase one highmast have been ordered and delivery is estimated end October 2019 and Street Lighting is at design stage. USDG Electrification Program contractor is on site at Phakamisa and for Electrification of Informal Dwellings Materials have been ordered for Mzamomhle which are being partially supplied as per works programme, work is undertaken in a phased approach.

Human Settlements

Annual contractor has been appointed and has commenced with work. Expenditure is expected to improve in the second quarter.

11.1.4. NEIGHBOURHOOD DEVELOPMENT PARTNERSHIP GRANT (NDPG)

Requisitions have been prepared for the work. Work will start as soon as the orders have been received. Majority of orders are expected in October 2019.

11.1.5. INTEGRATED CITY DEVELOPMENT GRANT (ICDG)

The process of project identification is complete. Project estimates have been complete and requisitions have been prepared for the work. Work will start as soon as the orders have been received.

11.1.6. PUBLIC TRANSPORT INFRASTRUCTURE GRANT (PTNG)

a) Qumza Highway:

The contractor is busy with Layer works on the first section of the road. Expenditure will improve once all sections are progressed to the Asphalt Level.

b) Mdantsane Access Road:

The proposals for the appointment of specialist service providers to carry out concept designs are being finalized. The service provider will be appointed by the end of October 2019.

c) Industry Transition Plan & Universal Access Development Plan:

The project commenced at the beginning of August 2019. Expenditure is expected to improve in the second quarter.

12. COUNCILLOR AND EMPLOYEE BENEFITS

12.1. Councillor and Employees Benefits Summary

Table 19 below provides summary of employees and councillors remuneration. The workforce costs as a percentage of total expenditure amounted to 27.92%%. This is within the norm of 25% - 40%.

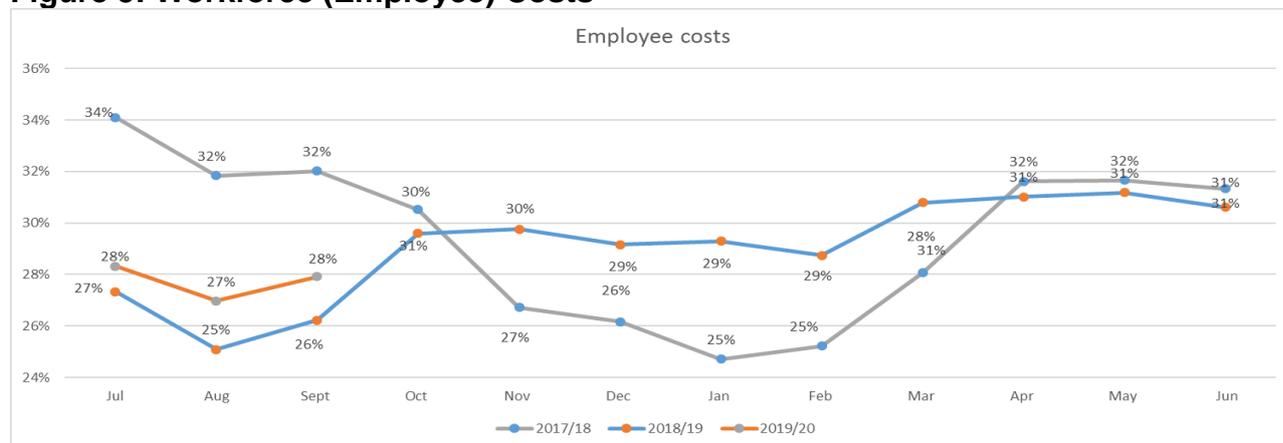

Table 19: SC8 Monthly Budget Statement – Councillor, Board Members and Staff Benefits

	TOTAL OVERTIME	10 387 269.75	9 488 225.53	10 648 856.39

The measures that have been put in place to reduce overtime are the following:

- a) Employees are not permitted to work more than ten (10) hours overtime per week – this is in line with the Basic Conditions of Employment Act.
- b) All planned overtime is capped at forty (40) hours per month - this is in line with the Basic Conditions of Employment Act.
- c) All emergency overtime to be signed and approved by Heads of Directorates to ensure accountability and emphasis on control measures.
- d) Further to the above, an indepth study to be undertaken on the overtime work in comparison to the service delivery need, available staff complement and allocated overtime budget.

The graph below shows the overtime expenditure monthly trend for the current financial year compared to prior year

Figure 6: Overtime Expenditure Monthly Trend

12.2.1. Comments On Overtime

a) Directorate of Executive Support

The planned and emergency nature of tasks within the Political Offices contribute to excessive hours of work. Overtime incurred is also due to ward committee meetings, Inter-departmental and Inter-Governmental Relation programmes.

b) Directorate Of The City Manager

The nature of tasks within City Managers office contribute to excessive hours of work.

c) Directorate of Corporate Services

The over expenditure on overtime is as a result of nature of operations which necessitates the drivers to deliver council packages outside the normal operating hours. In some cases, staff are required to do special deliveries that contributes to working overtime.

d) Directorate of Finance

The over expenditure of overtime is as a result of staff that worked to process and finalise financial year-end processes. Call Centre also contributes to over expenditure as it is required to be operational 365 day a year, which includes weekends and public holidays. The staff are 5 day workers and as such need to be paid overtime for workdone on a weekend and public holidays in order to keep the Call Centre operational.

e) Directorate of Health, Public Safety & Emergency Services

Structured overtime is compulsory compensation payable as a result of the requirement to work on Sundays and Public Holidays as part of a shift system. The structured overtime cannot be reduced for Fire & Rescue as this function operates on a 24-hour basis. Any reduction would have a negative effect on service delivery by the Fire & Rescue Services.

Overtime is worked by security guards combined with law enforcement, this is an issue which needs to be resolved. Security guards are working longer hours due

to the fact that there are many sites which require security guarding and there is insufficient staff to cover all sites.

f) Directorate of Infrastructure Services

- i. Electricity – This is due to emergency raids which are carried out after hours to eradicate illegal connections.
- ii. Roads – Emergency overtime was done to fix potholes that was damaging vehicles at Illitha and covering of stormwater drains in Cathcart Street, KWT.
- iii. Sanitation – Overtime expenditure is due to emergency callouts for sewer blockages and replacement of shift workers at wastewater treatment works and pump stations.
- iv. Water - Overtime expenditure is due to emergency callouts for burst pipes and replacement of shift workers at water treatment works and pump stations.
- v. Mechanical Workshop - Overtime is mainly caused by call outs by departments for either mechanical breakdown, tyre punctures, vehicles getting stuck & accidents.

g) Directorate of Municipal Services

Overtime is linked to hall usage, the staff working overtime are halls staff. Most bookings occur after hours or over weekends which results in overtime. This is a service to the public and it is therefore essential that the overtime is worked.

Cleansing & Refuse Removal: Inland – the department provides services 7 days' a week and five days are normal working days. Saturday and Sunday is regarded as structured overtime, due, increase of events and breakdown of trucks that lead to backlog and causes the Solid Waste department to work on weekends.

Recreation, Sportsfield and Conservation : The sections nature of operations require it to open 7 days a week and on public holidays.

12.3. Standby and Shift Allowance Analysis

Table 22 below reflects the total standby and shift allowance incurred per directorate for the past three months ended 30 September 2019. The total standby and shift payment for the months of July 2019, August 2019 and

September 2019 is reflected below. There was an increase in the total payment between July 2019 and August 2019 of R85 287 and an increase in the total payment between August 2019 and September 2019 of R47 300.

Table 22: Standby & Shift Allowance per Directorate

14. CAPITAL PROGRAMME PERFORMANCE

BCMM has spent 7% (R145.87 million, inclusive of reclaimed vat) of its 2019/20 capital budget of R1.95 billion as at 30 September 2019. This reflects a slight improvement in rand value terms when compared to the same period in the previous financial year where 7% (R133.10 million, inclusive of reclaimed vat) of the budget of R1.99 billion was spent. It is expected that the expenditure will improve in the second quarter as procurement processes for major contracts would have been concluded.

Refer to Annexure A – C5 for the breakdown per municipal vote standard classification & funding; Annexure B – SC14 for monthly expenditure trends; SC13a for breakdown of asset classification for new assets and SC13b for breakdown on asset classification on renewal of existing asset. A detailed schedule of the capital projects expenditure is outlined in Annexure E.

Table 26 below reflects capital expenditure performance per source of funding.

The graph below shows the capital expenditure trend inclusive of reclaimed vat for the current financial year and the previous financial year.

Figure 7: Capital Expenditure Trend

14.1. Strategies that have been put in place to improve expenditure

The City continues to implement intervention measures to improve the City’s spending performance. The weekly reporting that is submitted to the City Manager on sitting of bid committees assists in early identification of challenges. This has led to further review of bid committees to improve its effectiveness as a result:

- a) All bid committees were restructured in December 2018 to ensure effectiveness and efficiency.
- b) With the new restructured committees it is envisaged that the target of taking an average period of three months from initiation to the award of an open bid; whereas in the past it used to take an average of about six months.
- c) A Selection Committee has been established to ensure fair distribution of work promote competition realise value for money ensure rotational system which is cost effective and transparent in the management of awarded annual contracts.
- d) Reconfiguration of processes at the Supply Chain Management unit are also underway to improve all pocurement related activities.

15. OTHER SUPPORTING DOCUMENTS

15.1. Operating Projects Expenditure

The Metro has spent 6% (R27.22 million, inclusive of reclaimed vat) of its 2019/20 operating projects budget of R466.26 million as at 30 September 2019. This reflects a slight decline when compared to the same period in the previous financial year where 8% (R26.11 million, inclusive of reclaimed vat) of the operating projects budget of R333.73 million was spent year. It is expected that the expenditure will improve in the second quarter as procurement processes for major contracts would have been concluded.

A detailed schedule of the operating projects expenditure is outlined in **Annexure D**. Also refer to section 14.1 above of the report on measures that are implemented to improve expenditure.

Tables 30 and 31 below summarise Annexure D.
