

Access to the SG Approved and Registered Cadastre

Corporate GIS is currently working with ESRI to enhance PropViewer. These upgrades will include the hosting of recently audited [SG Approved and Registered Erven](#). Until then, the cadastre is available through the BCMM GeoPortal, accessed as follows;

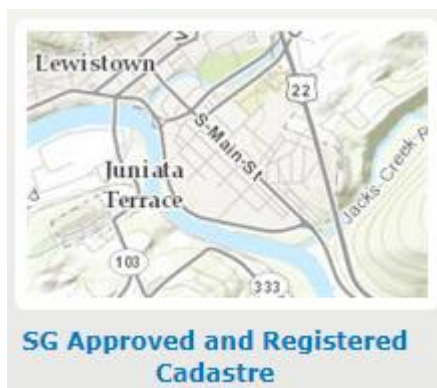

Go onto the Intranet

<https://buffalocity.sharepoint.com/sites/intranet-site-bcmm>

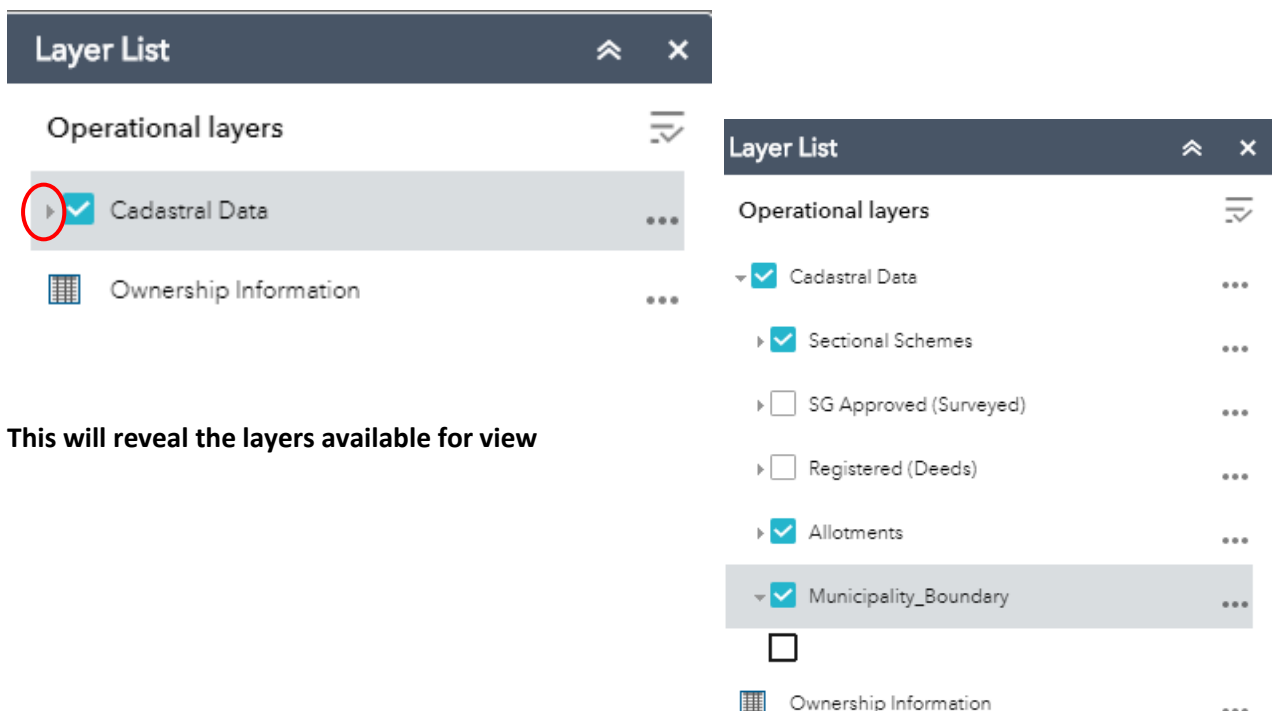

Click on BCMM GeoPortal

Click on SG Approved and Registered Cadastre

Click on the small triangle by the Cadastral Data to expand the Layer List

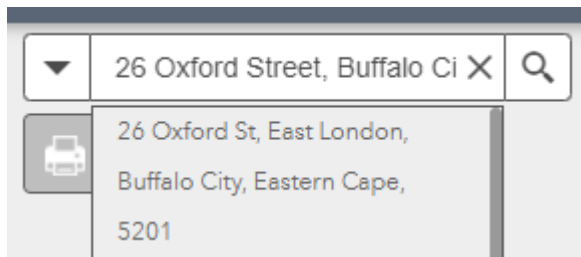

This will reveal the layers available for view

Property searches can be done using the search tool in the top left corner

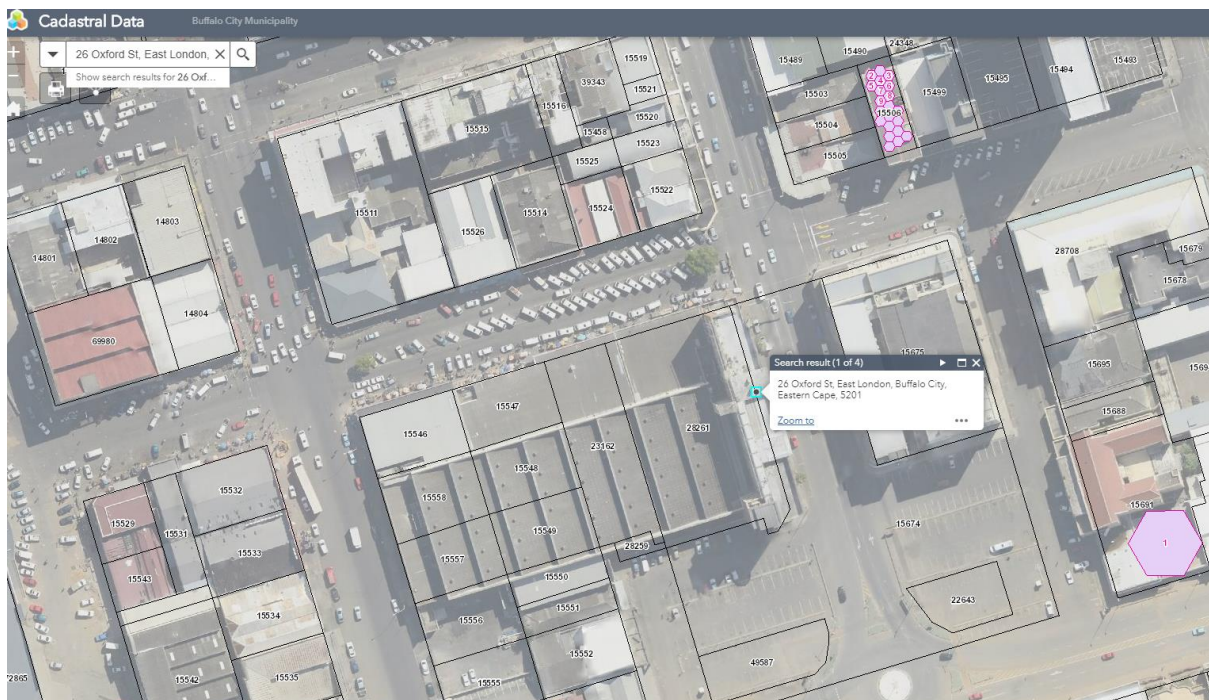

Start the search by either typing the prefix and first 6 digits of an LPKey, or Address or Name of Sectional Scheme

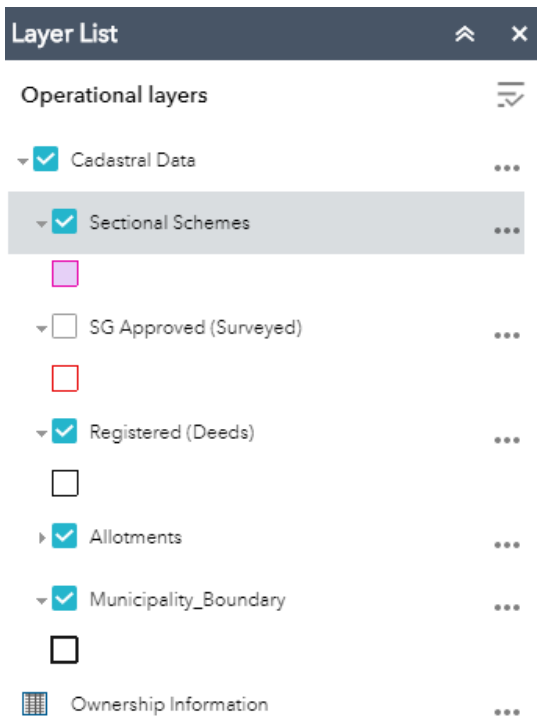

eg;

Result

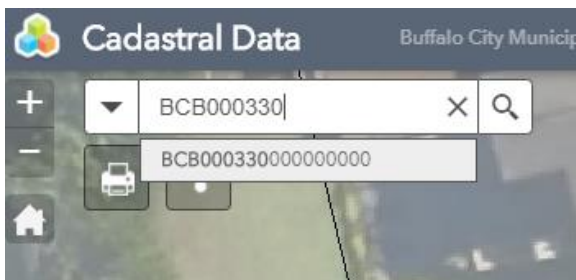

Black Lines represent Registered Erven, Red Lines are SG Approved and Pink Hexagons represent Sectional Schemes. Items in the Layer List can be expanded by clicking on the small black triangles on each line.

Layers can be turned on and off, simply by clicking on the green squares alongside each layer name

LP Key Searches – (Prefix and first 6 digits, starting with zero's – 3, for a 3-digit erf number, 2 for a 4 digit number etc.)

Result

An LPKEY comprises of an 18-digit number, but when doing a search, one must only know the prefix (**3 letters**) and the erf number, which is preceded by zero's depending on the number of digits in the erf number to total up to **6 digits**.

The table below shows, as an example, how an LPKEY for Erf 351 in Beacon Bay is constructed.

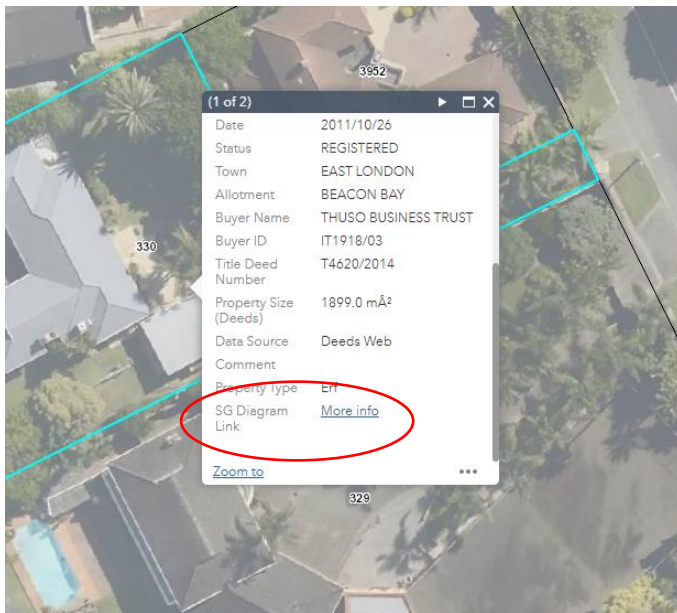

ErfPrefix			Erf Number						Portion				Lease Portion				
B	C	B	0	0	0	3	3	0	0	0	0	0	0	0	0	0	
3			6						4				5				

The table below shows the number of zeros that must come before the erf number, depending on the number of digits in the erf number

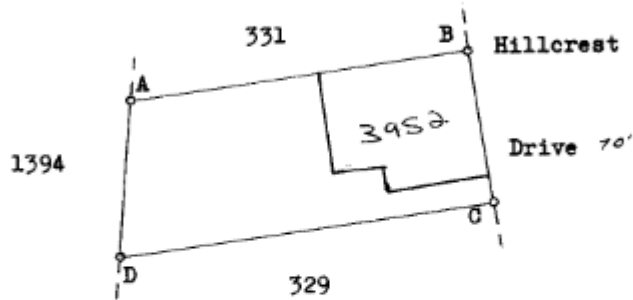

Number of zeros	Number of Digits in Erf number	Example
5	1	ELM000001
4	2	ELM000045
3	3	ELM000325
2	4	ELM004125
1	5	ELM012564

A lookup table is attached to the end of this document, which gives the prefixes for all allotments in BCMM

SG-Diagram link – The link to SG diagrams in the pop-up window will link to the Surveyor General website – by clicking on More-info hyperlink

Result

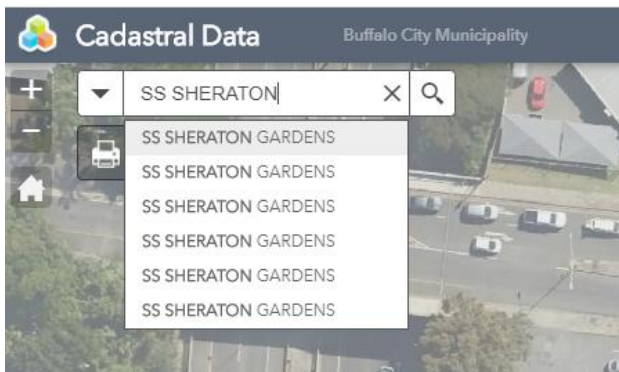

ERF 330 BEACON BAY

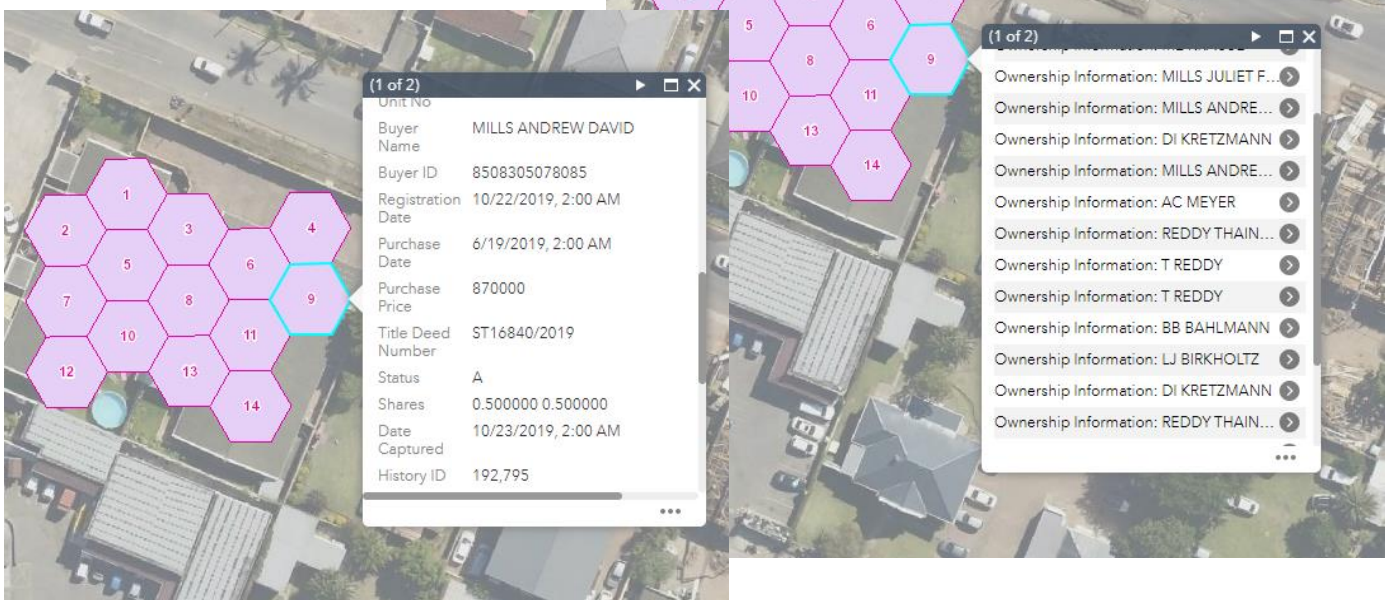

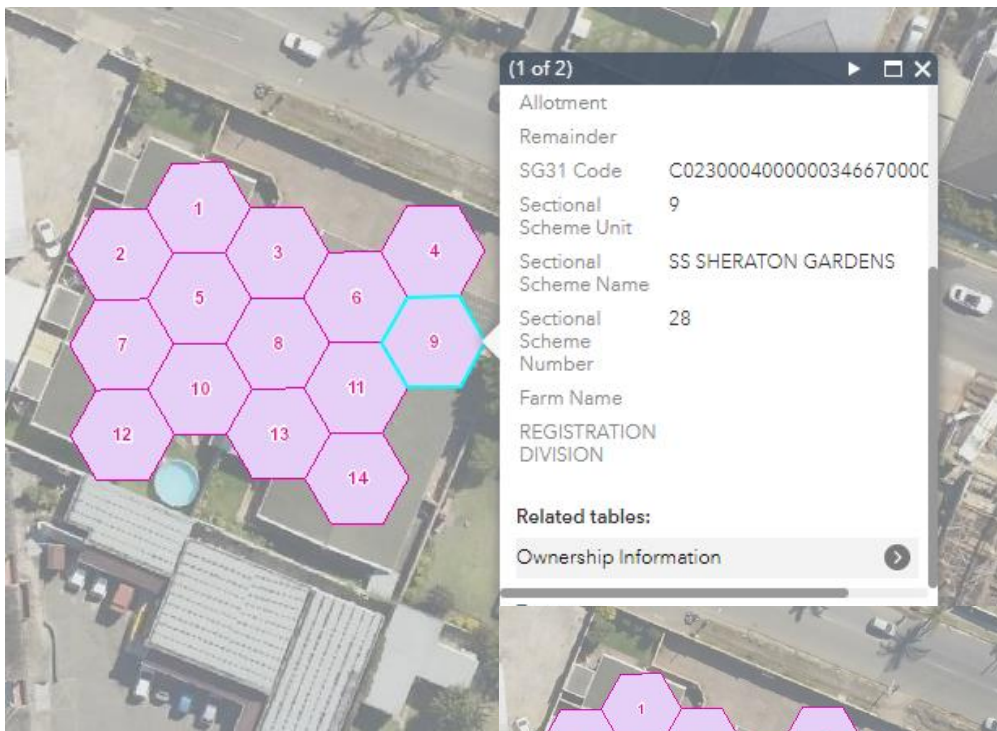

Scale 1:1250

The figure A.B.C.D. represents 28308 Square Feet of land being EAST LONDON NORTH TOWNSHIP situate in the Division of East London Province of Cape of Good Hope Surveyed in September 1950—August 1951 by me *[Signature]* Land Surveyor

Sectional Schemes can be searched for, by using the search tool in the top left corner, e.g.

Sectional Title properties are represented by pink hexagons representing the individual units. Simply clicking on a hexagon will bring up all attribute information, including Ownership information.
