BUSH CLEARING, DE-FORESTATION, GRASS CUTTING, WARD BEAUTIFICATION			
Big tree cutting	An elderly resident Mama Rala at Bhekela area stated that there were trees in her yard that were growing uncontrollable and posed a danger to her house when it was windy and made a request for the trees to be felled as she was staying with a physically challenged husband.	31	The mandate of BCMM and the department is limited to trees outside properties, however the Department will conduct an assessment and intervene in the 2023/24 financial year. The Department is in the process of procuring cherry pickers and chainsaws which will enable the department to help adequately.
Grass cutting	in 2012 two (2) Villages (Atyile and Nkqonqweni) were identified that the bhosisi grass was overgrown and were promised that the community would be assisted in that regard, but nothing had been done so far.	25	The scope of the department is limited to grass cutting in the urban areas and townships due to constraints in internal capacity and resources, however the department will conduct an assessment and seek an intervention from sector government departments through IGR structures. The land in question may be required for agricultural purposes and other land uses which sector departments can also assist the Municipality. The land use management aspects will require an integrated approach which the department will follow up on and be able to strategize on possible interventions.
Ward beautification	Beautification of the ward and bush clearance	39	The department commenced with the bush clearing programme on the 10 th of May 2023 at ward 39, Ginsberg and will intensify the programme through contract 283 in the 2023/2024 financial year.

WATER, SANITATION AND STORMWATER			
Water	Provision of water for all the areas	31	There is water supply in most of the areas in Ward 31, besides the areas that are on private land where the City is unable to install permanent water infrastructure (i.e Mdudura, Airport, Bompini, Overton etc.), these areas are currently assisted by water tanker deliveries.
Boreholes	Boreholes that needed to be maintained and be operational in order to assist with the provision of water.	31	Currently, do not use boreholes as all the villages are connected to the bulk water supply from Umzonyana water treatment works. It was only Ncera village 1 that used borehole water supply and that borehole is still available as a backup.
Dams	Dams need to be cleaned.	31	
Water	No water in the entire ward	32	It is acknowledged that there are water supply challenges in the ward due to water interruptions on Amatola Water bulk water supply, which supplies water to most of the ward 32 villages. These challenges are also due to illegal connections on the bulk water lines to reservoirs, frequent break downs on Amatola bulk mains and load shedding. The City has started to implement an alternative bulk supply project to remove Sandile, Gqala, Mpongo and Xhamini villages from Amatola Water bulk system and connect them to BCMM's bulk water supply system from Needsamp regional storage reservoir. This will reduce the water demand from Amatola Water supply system and allow more to go to other villages are still connected to Amatola Water System. Amatola Water has also just completed a project for the replacement of the bulk pipeline, which was frequently bursting, leading to no water going into the main storage

Community Need / Issue	Description	Location (Ward/Area)	Comments
WATER, SANITATION AND STORMWATER			
			reservoir at Openshaw, which then distributes to all villages.
Water in sportsfield	A request for water at the Mpongo Sportsfield as it was a necessity when playing rugby.	32, Mpongo	There is no municipal water infrastructure close to Mpongo Sportfields, a standpipe will be consider in future, when a permanent water reticulation is installed for the entire village. There is currently budget constraint for the construction of a regional storage reservoir at Xhamini and installation of reticulation mains from Xhamini reservoir to Sandile and Mpongo villages.
Sewerage	Being vandalised, request security or speed up	25	Matter will be investigated further and reported at the next session once the scope and size has been determined.
Water	Water pipes were never installed properly at Rhamnyibe depended on water supply by municipality	35	The City is currently conducting a feasibility study for the provision of water to all villages in ward 35 and the study is expected to be completed in June 2023.
Water	Water is scarce in the ward	37	The City is currently extending/upgrading the bulk supply from Amahleke scheme in order to supply Mdingi village and new village extensions. This is implemented as a multi-year programme due to budget constraints.
Water		39	Water supply in the rural areas of ward 39 is affected by inadequate bulk supply from Amatola Water due to load shedding, illegal connections on Amatola bulk mains and village extensions, which are not communicated to the Department before construction. The City is assisting with water tankers in the affected areas. Investigations for the provision of alternative

WATER, SANITATION AND STORMWATER			
			water supply to the affected areas will be conducted in the new financial year.
Water		43	Water supply in these areas is affected by 5-6 load shedding, which affects the provision of bulk water supply by Amatola Water. The City assists with water tankers in the affected areas. Amatola Water is still negotiating with Eskom for possible exemption from load shedding in their key water treatment works and pump stations to these areas.
Water	Request from Siyathemba area, water getting from borehole and dependant on electricity. Black outs are affecting water accessibility	44	The City to investigate alternative water supply to Siyathemba village and assists with tankers when the borehole is not functional.
Water and Toilets	Request for Tshabo residents	45, Tshabo	The City is currently conducting a feasibility study with preliminary designs for the extension of the existing water infrastructure to cover the village extensions.
Storm water pipes	Burst storm water pipes at Margaret Mcinga in Phase 3, stating that the water was flooding houses.	9	Complaint to be investigated to determine if it is a water main or stormwater pipe.
Sewer pipes	Fixing of burst sewer pipes.	47	
Stormwater		14	
Water and tanks	Request standpipes and water tanks at Cuba and eLuxolweni	17	Currently conducting a feasibility study for the provision of water services in these villages. Water is provided with tankers in the areas where there is no infrastructure, further investigations will be

			undertaken to assess the need for additional water tanks.
Dams	2 dams that require to be closed at Eluxolweni bring mosquito	17	
Stormwater	Promised to be cleaned up	17	
Water	Water challenge at Mpundu area. No water from taps	26	The City is currently implementing a multi-year programme for the upgrading of the Newlands bulk water system from Nahoon Dam in order to accommodate the rapid growth of development in the whole Nxarhuni area. We have in the meantime provided water tanks that are filled up by tankers as a temporary measure until the bulk system is completed. The implementation of this programme is limited to available budget per financial year.
Water	Provision of water for all the areas	31	
Maiden dam	Project never kick started in that dam	38	
Toilets	Building of new toilets	31	
Toilets	More toilets request kwaTshatshu and Crossroads	25	Toilets will be provided in the 2023/24 FY as part of the rural sanitation backlog eradication program that is multi-year in nature.
Toilets	Request for toilets at Rhamnyibe	35	
Toilets	Rhythm city residents request toilets to be built in the ward	38	
Maiden dam	Project never kick start in that dam	38

ILLEGAL DUMPING SITES, REFUSE REMOVAL			
Volunteers for Solid waste	A community member raised a complaint regarding jobs that were promised to fifty (50) volunteers in 2021 by Solid Waste Directorate in Cambridge township, volunteers were requested to submit Tax numbers and banking details, but no jobs had been provided as yet	4, Cambridge	The Directorate will investigate the matter and confirm whether there is any outstanding recruitment process for Cambridge as there have been projects implemented by the Directorate through EPWP and Public Employment Programme (PEP) in all the three regions of BCMM.
Wheelie bins and refuse bags		21	The department rolled out a pilot project in selected areas of the City and the outcomes of the pilot project indicated that the project will not be financially viable for the city. The department is currently distributing refuse bags in all areas of the Midland region including Ward 21.
Waste bins	Requested in informal settlement to keep the area clean	48	The directorate has resolved not to place skip bin in informal settlements due to criminal activities aligned with them. The Department will therefore strengthen clean up campaigns and educational programmes that will promote waste minimisation and clean environment. Waste refuse removal and collection will also be intensified.
Dumping sites	Request dumping sites as residents just litter	48	The Department has a programme of clearing illegal dumps which are occurring in open spaces. This programme is mainly informed by supervisor inspections and community complaints in all three regions. This illegal dump will also be considered in this programme.

FINANCIAL ADMINISTRATION (BILLING, METER BOXES, RENT OFFICE)			
Billing	80% deduction when buying electricity to the indigent in N.U.17	22	In terms of approved, BCMM Credit Control Clause 8(6)(b)(v-vi): Indigent Customers with arrears will be blocked on a block type on the prepayment system that will require that with the purchase of electricity, forty (40) % of the amount tendered to purchase electricity will be allocated to arrear debt. However, the consumer needs to apply to be included in the indigent register in order to qualify for the subsidy. <i>For Non-indigent debtors the municipality will allow a partial block purchase of electricity of 80/20 based on economic conditions prevailing at the time. The approval for the implementation of the partial block can be done by the Chief Financial Officer (CFO) in consultation with the Accounting Officer: Therefore, the Municipality implemented this clause in order to recover the debt owed by the affected consumers.</i>
