4. EXECUTIVE SUMMARY & OVERALL ASSESSMENT

4.1. Dashboard/Performance Summary

Table 1: Performance Summary

Current Liabilities	11 954 536	Workforce costs as a % of expenditure (incl. capex)	58%
		Workforce costs as a % of expenditure (excl. capex)	58%

The financial performance of the BCMDA for April 2026 reflects a strong position of liquidity and prudent fiscal management. The Agency recorded an income of R44.3 million against an expenditure of R42.5 million, resulting in an operating surplus of R1.7 million. Cash and cash equivalents stood at R22.2 million, with a quick ratio of 2.95:1, indicating robust short-term financial health. The Agency maintained a 100% 30-day

credit payment and workforce costs accounted for 58% of total expenditure, which is higher than the norm, affected by the sharp decline in revenue and the budget.

Liquidity weakened due to delays in NDP grant disbursements and the pre-financing of project expenditure by BCMMDA to ensure continued service delivery. This is expected to be resolved, as management has secured the outstanding NDP grant payment after two years and is awaiting the deposit from the City, which has confirmed receipt and processing of the payment (post period end).

4.2. Budget Cuts

Notwithstanding the Agency's stable financial indicators, the reduction in the operating grant allocation from Buffalo City Metropolitan Municipality (BCMM) has necessitated material adjustments to BCMMDA's operational budget. In compliance with the Municipal Finance Management Act (MFMA), the Agency has implemented cost containment measures, notably reducing allocations for contracted services and general expenditure. These adjustments, while necessary to maintain financial sustainability, may adversely affect the Agency's capacity to fully execute its mandate. The decline in funding heightens the risk of incurring irregular expenditure should operational demands exceed the revised budget envelope.

Below is a table which represents the budget cuts the Agency has had to perform. This represents the operational budget only and does not include grant funded expenditure:

Table 2 Budget Cuts:

Expenditure	2024/25 Budget	2025/26 Budget	Budget cut	% Budget cut
Contracted services	7 057 141	921 534	(6 135 607)	87%
Other expenditure	8 920 010	3 360 710	(5 559 300)	62%
Inventory consumed	226 847	135 000	(91 847)	40%
Transfers & subsidies	450 000	0	(450 000)	100%

Despite delays in NDP grant disbursements and the drop in the operational grant from the City, BCMMDA remains committed to delivering on its mandate and continues to engage stakeholders to resolve funding constraints. We remain focused on optimizing operational efficiency and ensuring sustainable delivery.

5. KEY FINANCIAL HIGHLIGHTS

5.1. Revenue

Table 3 Revenue Breakdown:

Detail	Approved Budget 2025/26	Budget year-to date	Year to date Actual	Variance year to date	% Variance
Grant revenue	59 818	49 848	42 739	(7 109)	(14%)
Own revenue	2 281	1 901	1 527	(374)	(20%)
Total Revenue	62 099	51 749	44 266	(7 719)	14.91%

For the 2025/26 financial year-to-date, total revenue performance reflects mixed movement across key categories, **total revenue for the period stands at R44.267 million**, which is below the year-to-date budget of R51.749 million.

Grant revenue which includes BCMM Operational Grant, LGSETA grant, and NDP revenue amounted to R42.739 million against a year-to-date budget of R49.848 million, **resulting in a negative variance of R7.109 million (14%)**, the variance is caused by the revenue realisation of the NDP Grant not being in line with budget-to-date. This should not be a cause for concern as spending will most likely increase during the finalisation stage of the Duncan Village Buy Back Centre. As a result of this, the Agency deems the variance satisfactory.

There was no own revenue during the period, except interest income of R1.527 million, slightly below the R1.901 million budget. As part of the financial sustainability strategy management is exploring strategic revenue diversification aimed at expanding rental income, introducing project management fee structures, and unlocking value from property development. These measures are designed to broaden the Agency's revenue base and ensure a gradual reduction in reliance on the BCMM operational grant.

5.2. Expenditure on allocations received

Table 4 Expenditure Breakdown:

Detail	Approved Budget 2025/26	Budget year-to date	Year to date Actual	Variance year to date	% Variance
Employee Cost	31 608	26 340	24 567	(1 773)	(7%)
Remuneration of board members	660	550	1 742	1 192	217%
Depreciation	540	450	383	(67)	(15%)
Inventory	235	196	191	(5)	(3%)

Detail	Approved Budget 2025/26	Budget year-to date	Year to date Actual	Variance year to date	% Variance
consumed					
Other costs	28 956	24 130	15 655	(8 475)	(35%)
Total Expenditure	61 999	51 666	42 538	(9 128)	(17.67%)

For the period under review, total expenditure amounted to R42.538 million, which is below the year-to-date budget of R51.666 million, resulting in a favorable variance of (R9.128 million).

Key expenditure categories performed as follows:

- **Employee Costs:** R24.567 million, underspending R1.773 million against the budget. This reflects effective workforce cost management and possible timing differences in filling vacant posts.
- **Remuneration of Board Members:** R1.742 million, exceeding the budget by R1.192 million. The variance may be attributed to increased board activity, while budget cuts had to be affected at the beginning of the financial year to comply with legislation and ensure the entity has budget that balances.
- **Depreciation:** R0.383 million, closely aligned to budget with a minor unfavorable variance.
- **Inventory Consumed:** R0.191 million, slightly above budget, indicating prudent resource utilization.
- **Operating Costs:** Operating costs are mainly driven by contracted services which spent R15.655 million, underspending R8.475 million, primarily due to cost containment measures and delayed project activity.

Overall, the Agency's expenditure remains well contained, with most categories tracking below budgeted levels. The only notable exception is board remuneration; however, management is monitoring this to ensure it will fall within budget parameters at the end of the financial year.

5.3. Cash and cash equivalents

BCDMA's cash and cash equivalents balance as at 30 April 2026 is R 22.2 million which is made up of cash and bank account balances amounting to R 0.4 million, a call investment balance of R21.8 million. These funds are banked with First National Bank. Included in the cash and bank account balances is an amount of R 457 which relates to the NDP waste management project.

BCMDA's quick ratio is 2.95:1 for the month ending 30 April 2026, indicating that the Agency's current assets are sufficient to cover its current liabilities (debts) which are short-term in nature. The liquidity ratio has increased from the previous month which shows a positive trajectory, and the Agency has been able to maintain a positive cashflow. The current liabilities comprise of trade payables, NDP unspent grant for the Duncan Village Buy-Back Centre, Bonus provision (13th Cheque & Performance), Staff provident fund, provision and retention costs.

621.Revenue by Source

Out of a total operational revenue budget of R 62.0 million, BCMDA heavily relies on operational grants of R 33.0 million from BCMM which is receivable in two tranches, normally around July and December of that financial year. The revenue sources for the 2025/26 financial year include the BCMM Operational Grant, LGSETA Grant and Neighborhood Development Grant.

Other revenue sources are:

- 6.2.1.1 The interest received is related to investment in surplus funds and always maintaining a positive bank balance on the primary bank account. Interest received to date is R 1 527 274.
- 6.2.1.2 Transfer and subsidies relate to both the 1st and 2nd tranche of the operational grant, which was received by January 2026.
- 6.2.1.3 Executive management is currently exploring opportunities in diversification concentrating on rental fees, project management fees and property development fees. There are also other opportunities that the Agency is exploring, utilising available resources. This should boost the revenue of the Agency and decrease reliance on BCMM.

622. Expenditure by Type

- 6.2.1.1 The expenditure on employee-related costs pertaining to Agency staff is currently at 58% in relation to the original budget. Most of the vacant positions from the previous year have been filled and recruitment process is currently under way for the vacant posts.
- 6.2.1.2 The year-to-date other expenditure on the schedules relates to operational costs for running daily activities of the agency.
- 6.2.1.3 Expenditure on most budget items is within expectations as the NDP project is currently underway with the construction of the Duncan Village Buy Back Centre continuing. Other major expenditures include the IT equipment lease and office rental. The Agency is currently seeking a speedy resolution to the disbursement of funds for the NDP program as the Agency is utilising its own funds to pay for all NDP expenditure, this will be recovered once the National Treasury has disbursed the grant funds. Strict budget monitoring will continue to guard against overspending on expenditure.
