# STATEMENT OF FINANCIAL PERFORMANCE AND THE IMPLEMENTATION OF THE 2016/17 BUDGET FOR THE PERIOD ENDED 30 JUNE 2017

# 1. PURPOSE

The purpose of the report is for Council to consider and note the statement of financial performance and the implementation of the 2016/17 budget of the Buffalo City Metropolitan Municipality for the period 30 June 2017.

# 2. AUTHORITY

Buffalo City Metropolitan Council

# 3. LEGAL / STATUTORY REQUIREMENTS

The Constitution of the Republic of South Africa, 1996 Municipal Finance Management Act No 56, 2003 Municipal Budget and Reporting Regulations, 2009

# 4. BACKGROUND

In terms of Section 52 (d) of the Municipal Finance Management Act No 56, 2003 Chapter 7, *"the Mayor must within 30 (thirty) days of the end of each quarter, submit a report to Council on the implementation of the budget and the financial state of affairs of the Municipality".* 

According to the Municipal Budget Reporting and Regulations (MBRR), 2009, "the monthly budget statement of a municipality must be in a format specified in Schedule C and include all the required tables, charts and explanatory information taking into account any guidelines issued by the Minister in terms of S168(1) of the Act" (MFMA).

This report follows the legislative requirements of the Municipal Budget and Reporting Regulations (Schedule C format).

This report contains preliminary information of transactions processed by end of business on 07 July 2017 as the financial year end closure is still in progress.

The institution will continue processing journals and closing entries up to the close of business 14 July 2017 to adequately account for all the financial transactions which affect the year end 30 June 2017. This will allow for the institution to produce a set of Annual Financial Statements for presentation to the Auditor General by 31 August 2017. As such, the results in this report are as at a point in time (07 July 2017) and will be subject to potential certain adjustments as issues arise to fairly present the financial affairs of the institution as at 30 June 2017. This report has been compiled in order to comply with Section 52 of the MFMA which requires submission within 30 working days of the end of each quarter as well as Section 71 which requires submission within 10 working days of the new month.

#### 6.2 Liquidity position

Buffalo City Metropolitan Municipality's liquidity is considered relatively sound as the Current Ratio is 3.74:1 which indicates the ability of Municipality's current assets to cover its current liabilities. Debtors constitute 39% of the current assets, inventory constitutes 1% and cash & cash equivalents comprise 57% of the current assets. The City has a stronger cash and cash equivalent and can easily meet its immediate obligations.

#### 6.3 Collection Rate and Outstanding Debtors

The year to date collection rate for the month ended 30 June 2017 is 88.60% (2015/16: 85.10%). The collection rate reflects an improvement when compared to the previous financial year. This ratio denotes the City's ability to collect the billed revenue from its consumers. The corrective measures that are implemented to improve the collection are detailed under section 8 of the report under debtors management.

Of concern is that during the past three (3) months (April 2017 to June 2017), disconnection action could not be implemented in the Inland region, due to the unstable ICT network. This has a negative effect on the implementation of the Credit Control Policy within the Inland region. This also results in outstanding rates and services bills increasing, which makes it more difficult to collect the debt going forward.

Total debtors book (including current accounts) as at 30 June 2017 amounts to R1.85 billion (2015/16: R1.68 billion). Households: R1.1 billion, Business: R492.7 million, Government: R31.2 million, Other: R229.8 million. BCMM analyses recoverability of debt on a monthly basis. During the latest review, an amount of R272.77 million was identified as irrecoverable in respect of rates and service charges. A report was prepared for Council's consideration and it was approved by Council and the debt has been written off during the 2016/2017 financial period.

Refer to section 8.1 of the report for details on debtors' management. The debtors' age analysis report is reflected on Annexure B – SC3.

# 6.4 Capital Expenditure

BCMM has spent 85% (R1.27 billion, inclusive of reclaimed vat) of its 2016/17 adjusted capital budget of R1.49 billion as at 30 June 2017. This reflects an improvement in both percentage and rand value terms when compared to the same period in the previous financial year where 78% (R1.08 billion, inclusive of reclaimed vat) of the adjusted budget of R1.39 billion was spent. (Refer to Section 14 for further details).

A detailed schedule of the capital projects expenditure is outlined in Annexure E.

# 6.5 Operating projects

The Metro has spent 79% (R267.75 million, inclusive of reclaimed vat) of its 2016/17 adjusted budget of R336.91 million as at 30 June 2017. This reflects an improvement in percentage terms when compared to the same period in the previous financial year where 67% (R335.64 million, inclusive of reclaimed vat) of the adjusted operating projects budget of R501.84 million was spent. (Refer to Section 15 for further details).

A detailed schedule of the operating projects expenditure is outlined in Annexure D.

# 6.6 Expenditure on Conditional Grants (DoRA Allocation)

The Metro has spent 96% (R787.34 million, inclusive of reclaimed vat) of its 2016/2017 conditional grants adjusted budget of R820.97 million as at 30 June 2017. This reflects an improvement when compared to the same period in the previous financial year where 90% (R740.17 million, inclusive of reclaimed of vat) of conditional grants budget of R824.32 million was spent. (Refer to Section 11 for further details).

# 6.6.1. Urban Settlement Development Grant (USDG) funded projects

BCMM has spent 104% (R759.3 million, inclusive of reclaimed vat) of its 2016/2017 USDG budget of R731.50 million as at 30 June 2017. This reflects an improvement in both percentage and rand value terms when compared to the same period in the previous financial year where 93%

(R702.61 million, inclusive of reclaimed of vat) of USDG budget of R755.5 million was spent. (Refer to Section 11 for further details).

#### 6.7 Cash and Cash Equivalents

The cash and cash equivalents of the City as at 30 June 2017 are R1.67 billion made up of cash and bank amounting to R10.81 million and call investment deposits of R1.65 billion. This funding is invested with various financial institutions in compliance with the MFMA. Refer to Section 7.7 and Annexure A – C7 for the cash flow statement as well as Section 10 and Annexure B – SC5 for the investment portfolio breakdown. The cost coverage ratio of the city is 4.36 months. This ratio indicates the municipality's ability to meet at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue during that period. This ratio denotes that the City can meet its monthly operating commitments 4 times, which is above the norm of 1-3 months as per the MFMA circular 71.

#### 6.8 Outstanding Creditors

The Metro is paying its creditors within 30 days as stipulated by the MFMA except when there are disputes on received invoices. However, Small Micro Medium Enteprises (SMME) are paid on a fortnightly basis to assist emerging service providers. Refer to Section 9 for details.

#### 6.9 Long-Term Debt Profile

The total long term borrowings of the municipality as at 30 June 2017 amounts to R445.77 million (Refer to Annexure C for the schedule of borrowings).

The ratio of capital charges to operating expenditure as at 30 June 2017 is 1.69%. This ratio assesses the level of capital charges / interest charges to operating expenditure. The norm as per the MFMA circular 71 is between 6 and 8%; BCMM is below the norm and has the capacity to take on additional borrowing to invest in infrastructure projects that generate revenue. The City is currently in the process of securing additional loan funding which will result in the actual ratio moving closer to the norm.

The total debt to revenue ratio is 10.07% as at 30 June 2017, this indicates the extent of total borrowings (short and long term debt financing) in relation to total operating revenue of the municipality. The purpose of the ratio is to provide assurance that sufficient revenue will be generated to repay liabilities. The municipality is therefore highly solvent to meet its debt obligation as it is below the set ceiling of 45% in accordance with the MFMA circular 71.

BUF Buffalo City - Table C4 Consolidated Monthly Budget Statement - Financial Performance (revenue and expenditure) - M12 June

# 7.4.1 ANALYSIS OF STATEMENT OF FINANCIAL PERFOMANCE

The explanation below pertains to all variances in excess of 10%.

## 7.4.1.1 Property rates

The current rating tariff for vacant land is 3 times higher than the residential tariff, leading to reduction of revenue in most cases when a property is improved, as the value of the property will increase, whereas a lower rating factor is applied.

# 7.4.1.2 Service Charges – water revenue

The primary increase relates to R90.5 million that has been raised in respect of free water provision to rural indigent customers for the period of 01 July 2016 to 30 June 2017. This was previously not accounted for as there were no bulk meters installed. The increase in the urban billing component resulted as additional actual readings were processed which resulted in the reversal of interim accounts whereby the actual consumption exceeded the interim consumptions.

#### 7.4.1.3 Service Charges – other

The primary increase relates to Electricity Availability charges that were raised through the billing system during the financial period 2016/17 (ending 30 June 2017). Where no consumable services are raised due to vacant properties, an availability charge is raised in terms of the approved tariff policy of BCMM.

#### 7.4.1.4 Rental of facilities equipment

Rental of facilities is demand driven and therefore difficult to predict accurately. The situation is monitored on a monthly basis.

#### 7.4.1.5 Interest earned – outstanding debtors

Despite credit control and debt collection actions that are implemented, the primary contributing factor to the increase in interest earned from outstanding debtors is attributed to the non-payment by customers as a result of poor economic outlook and high unemployment rates.

#### 7.4.1.6 Fines

The increase in revenue in terms of Traffic Fines can be attributed to the appointment of Total Client Services (service provider appointed by BCMM to assist with collection of fines), the use of the Automatic Number Plate Recognition system whereby offenders/vehicles are stopped if their vehicle is spotted with outstanding fines, the use of the sms system alerting offenders of their obligation to pay for outstanding fines, as well as an increase in operational activities such as road blocks and speed enforcements.

#### 7.4.1.7 Other revenue

Other revenue is made up of numerous miscellaneous items (e.g. town planning fees, fire levy charges, market income, road & transport registration fees, cemetery & burial fees, etc.). The revenue items contributing to the material variance are the following:

- -Transport fees: loss of revenue is due to reduced bus services, buses have been reduced from twenty-one (21) to five (5) as they were older than 20 years. A Section 78 Study on BCMM buses will be completed by July 2017, the purpose of the study is to assess whether the municipality should run or outsource the bus service.
- -Vehicle Registration Fees: loss of revenue can be attributed to the fact that licences and permits can be renewed at the Post Office and Provincial Traffic Department in Wilsonia.
- -Collection Charges: this relates to the recoverable legal costs to be recovered from debtors. Legal action could not be taken due to the fact that the contract with the Collection Agents had expired, and the subsequent contract has been challenged by the unsuccessful bidder. Therefore legal collection action is on hold until that process has been concluded.

## 7.4.1.8 Transfers and grants

The primary increase relates to R90.5 million that has been raised in respect of free water provision to rural indigent customers for the period of 01 July 2016 to 30 June 2017. This was previously not accounted for as there were no bulk meters installed.

# 7.4.1.9 Other expenditure

Other expenditure includes operating projects, operational costs as well as repairs and maintenance and these expenditure categories are underspent spent by 14% when compared to the annual budget. Details of expenditure on repairs and maintenance are provided in table 6 below. Details on operating projects are provided on section 15 of the report.

# 7.4.1.10 Repairs and Maintenance

Table 6 below reflects that as at 30 June 2017, the repairs and maintenance expenditure is 85% of the adjusted budget of R418.61 million (2015/16: 85%). Refer to Annexure B: SC13c (repairs and maintenance by asset class).

## 7.7 Monthly Budget Statement – Cash Flow

The Metros' cash flow position and cash/cash equivalent outcome is shown in the table below. The Metro's cash position reflects a net decrease of R709.63 million resulting in cash and cash equivalents closing balance of R1.67 billion as at June 2017. The net decrease in cash and cash equivalents can be attributed to the back pay on salaries' standardisation.

# 8.1.1. Additional debtors information

The debtors that are older than 30 days, which includes all charges, amounted to R1.59 billion as at 30 June 2017 which is an increase of R21.23 million over the amount of R1.57 billion as at 31 May 2017.

Despite credit control and debt collection actions that are implemented, the primary contributing factor to the increase in debtors and reduction in collection rate can be attributed to the non-payment by customers as a result of the poor economic outlook and high unemployment rates.

Furthermore, the municipality is experiencing the following challenges, which have a negative impact in the collection ratio:

- Consumers, who are unable to pay, deliberately raise queries, so that their accounts can be held in abeyance. When a query is logged, the account is flagged and protected against credit control action while the query is being investigated.
- Instability of the network, especially in the Mdantsane and King Williams Town areas, this continuously hampers the staff from attending to consumer accounts on time.
- Illegal connections and meter tampering is contributing to non-payment of services.

Revenue management has however embarked on implementing the following strategies in order to improve the collection rate:

- Effective implementation of disconnection of the electricity is being monitored and reviewed continuously;
- A Task Team within Revenue Management has been constituted to identify and to ensure that the consumer accounts in arrears are scrutinized with the intention of fast tracking collection of the debt, which will result in the reduction of the book debt;
- The Credit Control and Indigent Support Policy has been reviewed with the intention to implement strict controls over collection;
- Standard operating procedures have been reviewed and adopted which are currently being implemented;
- The Rates and Valuation are constantly checking whether properties are zoned correctly and subsequently raising the correct rates tariff.

### 8.2.2. <u>Age Analysis per Category</u>

Table 12 below details debtors age analysis per category type that are older than 30 days as at 30 June 2017. It also reflects the percentage split per category with domestic consumers having the highest share followed by indigent consumers. Please note that the financial system is not able to produce a collection ratio per service, however the collection ratio is reported on globally.

## Table 12: Age Analysis per Category Type

Note\*: A stop order deduction is implemented for all municipal staff and councillors in arrears. When new staff join the employ of the municipality in many instances there is services debt, and therefore the arrears will be liquidated over an acceptable period of time, in terms of the Credit Control Policy. The reason why the debt reflects in the 30/60/90 day columns relating to staff and councillors is due to the fact that when the stop orders are receipted the payment is allocated to the oldest ageing category, giving the impression that current is not being paid, which is not the case as an amount is being deducted for current accounts. Stop orders are only receipted on the billing system after the salary run and this now creates an impression that the accounts are in arrears as payment was receipted after the due date. Business Connexion (BCX) as the system vendor has been tasked to look into ways that can resolve the timing issue.

#### 8.2.3. Government Accounts

The total arrears (30 days and above) owed by Government Departments to Buffalo City Metropolitan Municipality as at 30 June 2017 amounted to R15.57 million. This indicates an increase of R2.23 million when compared to the prior month amount of R13.33 million. The breakdown of the arrears per department (excluding accounts in credit) is indicated in the table hereunder, as at 30 June 2017. The primary reason of the increase relates to payments received after 30 June 2017, which will reflect in the July 2017 reporting.

Table 13 below provides an analysis of government debtors that are older than 30 days as at 30 June 2017 and comparison with the previous month.

# 11.1 Expenditure On Conditional Grants (DoRA Allocation)

The Metro has spent 96% (R787.34 million, inclusive of reclaimed vat) of its 2016/2017 conditional grants adjusted budget of R820.97 million as at 30 June 2017. This reflects an improvement in both percentage and rand value terms when compared to the same period in the previous financial year where 90% (R740.17 million, inclusive of reclaimed of vat) of conditional grants mid-year adjusted budget of R824.34 million was spent.

Table 18 below reflects the year to date expenditure on 2016/17 total conditional grants.

#### Table 18: Spending per Conditional Grant Funding Allocation

Comments on performance of programmes that are implemented by the above funding are detailed below.

# 11.1.1. INTERGRATED NATIONAL ELECTRIFICATION PROGRAMME (INEP)

The following contracts were planned for the 2016/17 financial year:

AREA	CONNECTIONS
Buffer Strip Mdantsane Households	550
Chicken Farm Households	475
Fynbos/Scenery Park Households	550
Infills Households	50

The INEP funding is utilised to fund the above mentioned electrification programme. Service providers have recently been appointed (award) for

Chicken Farm Households and Fynbos/Scenery Park Households, work will commence in July 2017. Fifty (50) connections have been completed for infills households.

# 11.1.2. FINANCE MANAGEMENT GRANT

The funding has been fully utilised. Initially there were six interns on the internship programme and an additional three interns were appointed effective from 01 November 2016. The interns were remunerated accordingly. Furthermore, the grant funded training in Municipal Finance Management Programme (MFMP) which is being attended by three interns and three finance officials.

#### 11.1.3. INFRASTRUCURE SKILLS DEVELOPMENT GRANT (ISDG)

The funding was only being used to pay the interns stipends as well as mentor salaries. Previously there were eleven (11) interns in the program together with 2 external mentors. Nine (9) additional interns started on 01 December 2016 and their stipends increased expenditure. Four (4) additional mentors were appointed effective from 01 April 2017 and expenditure increased thereof. Furthermore, there were delays in the appointment of the GIS Mentor. A roll-over application of R1.83 million accompanied by a recovery plan will be requested to National Treasury.

# 11.1.4. INTERGRATED CITY DEVELOPMENT GRANT (ICDG)

Rehabilitation works at Oxford Street, North and Stephenson Streets completed.

# 11.1.5. URBAN SETTLEMENT DEVELOPMENT GRANT (USDG)

#### **INFRASTRUCTURE SERVICES**

#### **Sanitation**

Numerous projects are multi-year and on-going and expenditure is as per contractors performance.
#### **Electricity**

Six (6) electrification of informal dwelling area projects have been completed. Four (4) street lighting projects and three (3) highmast installations have been completed, this project is 86% complete. The INEP Electrification Programme - Counter funding Reeston Phase 3 (Chicken Farm) Electrification is still work in progress and it is 63% complete.

#### SPATIAL PLANNING & DEVELOPMENT

#### KwaTshathsu Pedestrian Bridge

Tender was awarded on 22 November 2016 and construction commenced on 06 March 2017; the project is approximately 90% completed at the end June 2017.

#### Needs Camp / Potsdam Bridge

The construction tender was awarded on the 09 December 2016. One of the losing bidders contested the award and recently withdrew. Construction was meant to commence late in April 2017 but due to the Department of Labour delaying to issue a construction permit, which was only issued on 9 June 2017, the Contractor only commenced on the 21<sup>st</sup> June 2017.

#### Traffic signals

Service Providers have been appointed to assess intersection controls that need improvement. Once the studies are completed, implementation will then be undertaken by means of acquiring materials and installing traffic signals at Amalinda (SPCA & Amalinda Stadium intersection) and Dice and Mdantsane Access Road intersections. Count Down signals will also be installed in the East London and King Williams Town Central Business District (CBD).

#### <u>Sidewalks</u>

Construction of Sidewalks in Mdantsane NU5 and Airport Township have been completed.

#### HEALTH / PUBLIC SAFETY & EMERGENCY SERVICES

The Construction of King William's Town Traffic Centre tender was awarded on the 27<sup>th</sup> February 2017. Sod Turning ceremony took place on the 5 April 2017 and site Construction is in progress & contractor is progressing well. Contractor is 8 weeks ahead of program and estimated completion date is February 2018.

#### **MUNICIPAL SERVICES**

The contractor is on site for the construction of Cell 3 and 4 for Roundhill landfill site and the project is progressing well.

#### 11.1.5.1. PUBLIC TRANSPORT NETWORK GRANT

#### Transport Register

Meetings were held with Taxi Associations so that preparation for Data Collections can proceed. Data Collection resumed in February 2017 and is progressing well.

#### Operational plan review of integrated rapid public transport network

The tender for the review of the Operational Plan was advertised on the 1<sup>st</sup> July 2016 and closed on the 2<sup>nd</sup> August 2016. The project was awarded on 9 June 2017.

#### <u>Qumza Highway</u>

The Tender for the Construction of Qumza Highway closed on 21 October 2016 and has recently been awarded in June 2017 and the Contractor has started Site Establishment.

#### **Development and Upgrading of Public Transport Facilities in KWT**

The contractor started construction in January 2017 and building works is progressing well.

#### 12.2.1. Comments On Overtime

#### a) Directorate of Executive Support Services

The over expenditure is due to the respective political office's Bodyguards having to work extended overtime and night shifts. Furthermore, Public Participation (Political Office) unit staff had to work overtime due to loudhailing done after business hours and on weekends and also attending IDP/Budget Hearings.

#### b) City Managers Office

The over expenditure on overtime was due to the year end procedures that were undertaken by the Internal Audit unit.

#### c) Directorate of Corporate Services

The over expenditure on overtime is as a result of council meetings which necessitates the drivers to deliver council agendas outside the normal operating hours.

#### d) Directorate of Finance

A large portion of the over expenditure was due to Financial Reporting and Supply Chain Management officials having to work overtime in order to meet the deadlines for the submission of Requests for Information (RFI's) to the Auditor General (AGSA). Furthermore, in the month of April 2017 staff worked emergency overtime due to the implementation of credit control policy to BCMM consumers for all three regions. Coastal region consumer support staff had to attend to all consumers that were being disconnected and blocked due to network challenges that were experienced in Midland and Inland regions. This resulted in extended hours being worked by coastal staff. In the month of May 2017 some staff attended the IDP/budget roadshows.

#### e) Directorate of Infrastructure Services

Electricity – Overtime is incurred while carrying out emergency work in all areas of East London and King Williams Town/Bisho due to standby emergencies, vandalism, theft, revenue protection raids for illegal connections etc.

Water - Overtime is incurred while carrying out emergency work due to the high

number of pipe bursts.

Sanitation – Overtime is incurred while carrying out emergency work (burst rising mains etc.) and attending to alarms received via the telemetry system or faults at pump stations i.e. tripped pumps etc.

#### f) Directorate of Health / Public Safety & Emergency Services

The traffic services as an emergency service will always have to work overtime due to the nature of services rendered in that it has to respond to all emergencies either road accidents, unrest situations, protest marches, shortage of staff and disasters. Health Officials attended events to ensure health compliance regarding catering, vendors and toilet facilities and measuring of noise levels at place of entertainment following complaints. Big events were held where presence of Health officials was most vital, eg Africa Bike Week and BCMM Easter Festival Buffalo Park Stadium in April.

#### g) Directorate of Municipal Services

Overtime is linked to hall usage, the staff working overtime are halls staff. Most bookings occur after hours or over weekends which results in overtime. This is a service to the public and it is therefore essential that the overtime is worked.

The Department of Solid Waste Management is experiencing a shortage of trucks due to mechanical problems and a shortage of staff. The department is forced to allow workers to work after hours in order to curb the backlogs in certain areas to meet service delivery expectations and some areas within the region require a seven days coverage of refuse removal due to large volumes of waste generated.

#### 12.3. Standby and Shift Allowance Analysis

Table 22 below reflects the total standby and shift allowance incurred per directorate for the past three months ended 30 June 2017. There was a decrease in the total payment between April 2017 and May 2017 of R97 265 and a decrease in the total payment between May 2017 and June 2017 of R27 333.

#### 13.MUNICIPAL ENTITY FINANCIAL PERFORMANCE

The entity has started operating on its own with minimal need for daily support from the parent municipality. The Buffalo City Metropolitan Development Agency had a budget of R18.38 million which has been adjusted to R 20.8 million to include the Greenest Municipal Competition grant received from Department of Enviromental Affairs. The business plan for the said grant was only approved in December 2016 hence it became imperative to include the grant amount in the adjustments budget. The entities expenditure to date is R 17.51 million (84%) of the R 20.8 million as at 30 June 2017.

The statement of financial performance of the entity presented in the table below, compares the expenditure and revenue against budget for the period ended 30 June 2017.

A detailed analysis of the entity's financial performance for month ended 30 June 2017 is outlined in the attached Annexure F.

#### 14. CAPITAL PROGRAMME PERFORMANCE

BCMM has spent 85% (R1.27 billion, inclusive of reclaimed vat) of its 2016/17 adjusted capital budget of R1.49 billion as at 30 June 2017. This reflects an improvement in both the percentage and rand value terms when compared to the same period in the previous financial year where 78% (R1.08 billion, inclusive of reclaimed vat) of the adjusted budget of R1.39 billion was spent. Refer to Annexure A – C5 for the breakdown per municipal vote, standard classification & funding; Annexure B – SC12 for monthly expenditure trends; SC13a for breakdown of asset classification for new assets and SC13b for breakdown on asset classification on renewal of existing asset).

A detailed schedule of the capital projects expenditure is outlined in Annexure E. Table 26 below reflects capital expenditure performance per source of funding.

BUF Buffalo City - Supporting Table SC13b Consolidated Monthly Budget Statement - capital expenditure on renewal of existing assets by asset class - M12 June

#### 15. OTHER SUPPORTING DOCUMENTS

#### 15.1. Operating Projects Expenditure

The Metro has spent 79% (R267.75 million) inclusive of reclaimed vat of its 2016/17 adjusted budget of R336.91 million as at 30 June 2017. This reflects an improvement in percentage terms when compared to the same period in the previous financial year where 67% (R335.64 million, inclusive of reclaimed vat) of the adjusted operating projects budget of R501.84 million was spent.

A detailed schedule of the operating projects expenditure is outlined in Annexure D.

Tables 32 and 33 below summarise Annexure D.

#### 17.VIREMENTS ON THE 2016/17 BUDGET

Changing circumstances and prioritisation during a financial year may give rise to a need for virement of funds within the vote as permitted in terms of the Municipal Finance Management Act (MFMA) no 56 of 2003. The City's virement policy permits that sufficient budgetary provision should be available within the "giving" vote or project concerned to give effect to the budgetary virement.

The implemented virement is in accordance within the prescripts of section 15 of the MFMA. Furthermore section 29(2) (c) of the MFMA, permits the Mayor to report such virements in the next municipal council after being implemented.

#### 17.1 Directorate of Human Settlements

The Directorate of Human Settlements experienced budget constraints on some projects that are performing above expectation. The directorate also experienced challenges within some projects that are currently being implemented and these challenges have caused some projects to move slowly. Due to this the directorate requested that funds from slow moving projects be re-allocated to projects that are performing well in the month ending 30 June 2017. The funding sources for each of the transfers were the same; the transfers were between existing capital projects which were approved by Council.

Table 36 below details the virements that were effected for the Directorate of Human Settlements.

 Table 36: Budget Transfers within the Directorate of Human Settlements

An amount of R1 million from USDG has been transferred from Directorate of Human Settlements (Mdantsane Zone CC) to the Directorate of Health, Public Safety and Emergency Services (Construction of New KWT Traffic Centre).

#### 17.2 Directorate of Infrastructure Services

The Directorate of Infrastructure Services experienced budget constraints on Bulk Water Provision Programme. The Mncotsho and Mabaleni villages are experiencing low water pressure problems. Due to this the directorate requested that R3 million from Fleet Street project be re-allocated to Bulk Water Provision Programme for an extension of the network to cover additional households and for the upgrade of line to ensure adequate supply to these villages. The transfer was between existing capital projects which are both funded from Urban Settlement Development Grants (USDG) and both of these projects were approved by Council.

#### 18. SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)

The SDBIP is a management, implementation and monitoring tool which assists the Executive Mayor, Councillors, Accounting Officer, Senior Managers and the community with the realization of Municipality's strategic objectives as contained in the Integrated Development Plan. It also seeks to ensure monitoring and execution of the budget, performance of senior management and the achievement of the service delivery objectives set by Council. SDBIP enhances the principle of democratic and accountable local government as enshrined in section 152 of the Constitution. The SDBIP should therefore contain information that pertains to performance indicators, service delivery targets as well as measurement source. The SDBIP for the 2016/2017 financial year per vote is informed by Council resolutions to improve the quality of life of residents and citizens of BCMM. In doing so, Council is renewing its pledge to create "a City that grows with you".

The BCMM 2016/17 Service Delivery Targets and Performance Indicators as well as actual performance achieved are attached as Annexure G.
