BUF Buffalo City - Supporting Table SC1 Material variance explanations - M12 June

| Ref | Description <br> R thousands | Variance | Reasons for material deviations | Remedial or corrective steps/remarks |
| :---: | :---: | :---: | :---: | :---: |
| 1 | Revenue By Source |  |  |  |
|  | Service charges - electricity revenue | $(199,815)$ |  |  |
|  |  |  | The consumption registered from the smart metered sites have indicated that the monthly billing is consistent with previous periods. Factors that contributed to the variance between budget and actual performance are, but not limited to the following: <br> i. The imposition of intensified load-shedding at the beginning of 2019. <br> ii. The continued drive from ESKOM to reduce electricity consumption. <br> iii. The move by more affluent consumers to off grid or alternative energy sources. <br> iv. Increase in meter tampering and illegal connections into the BCMM Electrical Grid. |  |
|  | Service charges - water revenue | $(133,606)$ | The variance is due to the following: <br> i. areas where there is community unrest whereby meters could not be read. <br> ii. challenges relating to delays in communicating the information on completed RDP houses to water and billing departments as the process is not automated. |  |
|  | Service charges - refuse revenue | $(46,930)$ | This service has remained consistent in the monthly billing per month for the financial year, however the extension of service that was anticipated did not materialise. |  |
|  | Interest earned - external investments | $(44,758)$ | The decrease in cash reserves that is mainly caused by the low collection rate when compared to the set targets, is having a negative impact on interest earned on external investments. |  |
|  | Interest earned - outstanding debtors | 12,045 | The variance is as a result of the debtors book that is increasing due to non-payment of debtors despite the daily credit control action that is implemented. Due to the monthly increase in debtors, the interest charges increase automatically. |  |

BUF Buffalo City - Supporting Table SC1 Material variance explanations - M12 June

| Ref | Description <br> R thousands | Variance | Reasons for material deviations | Remedial or corrective steps/remarks |
| :---: | :---: | :---: | :---: | :---: |
| 2 | Fines, penalties and forfeits <br> Transfers and subsidies | $\begin{gathered} \hline(2,684) \\ (119,892) \end{gathered}$ | The material variance in Fines \& Penalties is caused by the following factors: <br> (i) Limited staff and resources to execute in the servicing proxies and summonses. <br> (ii) Inclement weather prohibited operations deployment. <br> (iii) Offenders failing to finalize their outstanding offence payments. <br> Revenue of grants is recognized when grant conditions are met; year-end accruals and journal entries are still being processed. |  |
|  | Expenditure By Type |  |  |  |
|  | Debt impairment <br> Depreciation \& asset impairment | $(115,984)$ 567,423 | The following factors influence the variance for Debt Impairment: <br> i. Debt write-offs are done periodically during the financial year. <br> ii. Debt write-offs are only implemented after a proper investigation is conducted into each account. This process can take between 1-6 months depending on the number of accounts that are appearing on the write-off list. <br> The process of finalising and processing the year-end entries that relate to debt impairment is still underway to be concluded as part of preparing the final set of Annual Finacial Statements. <br> The variance is due to the fact that the City is using revaluation model to value its infrastructure assets. The change of valuation model is still under consideration. The process of finalising and processing the year-end entries that relate to depreciation and asset impairement is still underway to be concluded as part of preparing the final set of Annual Finacial Statements. |  |

| Ref | Description <br> R thousands | Variance | Reasons for material deviations | Remedial or corrective steps/remarks |
| :---: | :---: | :---: | :---: | :---: |
|  | Contracted services | $(150,120)$ |  |  |
|  |  |  | The variance is mainly due to the under expenditure on operating projects. The two operating projects with significant low expenditure are: <br> a) Human Settlements projects - some projects were delayed after local communities forced entry into the incomplete houses and delayed construction. An execution order will be executed whereby all illegal invasions will be evicted. <br> b) Rural Sanitation Backlog: Contractors are on site, project is targeted for completion by end June 2019. <br> c) Year-end accruals and journal entries are still being processed and the expenditure on contracted services is also expected to improve. |  |
|  | Transfers and subsidies | $(9,447)$ | The actual expenditure is below the projected expenditure for the period under review due to delays in the implementation of Trade, Industry \& Rural Agrarian programme. |  |
