1.1 GENERAL CONDITIONS OF THE REQUEST FOR QUOTATIONS (RFQ)

BIDDERS ARE REQUIRED TO FAMILIARISE THEMSELVES WITH THE TENDERING CONDITIONS AND PROCEDURES AS DOCUMENTED BELOW.

1. For the purposes of this RFQ document, the words 'bidder' and 'tenderer', and 'RFQ' and 'tender' shall bear the same meaning.
2. 'BCMM,' where referred to in this document means Buffalo City Metropolitan Municipality'.
3. No quotation will be considered unless submitted on this RFQ document.
4. The whole original RFQ document, as issued by BCMM must be submitted. A quotation will be considered invalid and will not be accepted, if any part of this RFQ document is not submitted.
5. Bidders must submit one RFQ offer only, either as a single tendering entity or as a member of a joint venture.
6. Telephonic, telegraphic, telex, facsimile or emailed RFQ submissions will not be accepted.
7. Any portion of the RFQ document not completed will be interpreted as 'not applicable'. Notwithstanding the afore-going, failure to complete any compulsory portion of the RFQ document will result in the RFQ submission being declared non-responsive.
8. **Quotations must be properly received and deposited, on or before the closing date and on or before 12:00pm, in the Informal Tender Box at the BCMM Supply Chain Management Unit ('SCMU') situated at 80 Phillip Frame Road, Chiselhurst, East London. If the quotation submission is too large to fit in the allocated box, please enquire at the reception for assistance.**
9. **BCMM accepts no responsibility for ensuring that quotations are placed in the correct tender box, and should a quotation be placed in the incorrect tender box, it will be not be accepted.**
10. **BCMM reserves the right to accept:**
 - 10.1 the whole quotation or part of a quotation or any item or part of any item, or to accept more than one quotation (in the event of a number of items being offered), and BCMM is not obliged to accept the lowest or any quotation;
 - 10.2 a quotation which is not substantially or materially different from the RFQ specifications.
11. BCMM shall not consider quotations that are received after the closing date and time, as specified in the RFQ advertisement.
12. BCMM will not be held responsible for any expenses incurred by bidders in preparing and submitting quotations.
13. BCMM may, after the RFQ closing date, request additional information or clarification of submitted quotations, in writing.
14. A quotation may be rejected as non-responsive if the bidder fails to provide any clarification requested by BCMM within the time for submission stated in the written request for such clarification.
15. A bidder may request in writing, after the closing date, that its quotation be withdrawn. Such withdrawal will be permitted or refused at the sole discretion of BCMM after consideration of the reasons for the withdrawal, which shall be fully set out by the bidder in such written request for withdrawal.
16. The RFQ document must be signed by a person duly authorised to do so.
17. Quotations submitted by joint ventures, consortia, partnerships shall be accompanied by a joint venture, consortium, partnership agreement, in which it is defined precisely the conditions under which the joint

venture, consortium or partnership will function, its period of duration, the persons authorised to represent and obligate it, the participation of the several firms of which it is formed, and any other information necessary to permit a full appraisal of its functioning.

18. **Once the RFQ is awarded, all purchases will be made through an official BCMM Purchase Order. Therefore no goods must be delivered or services rendered before an official Purchase Order has been forwarded to the successful bidder. The successful bidder must then deliver or render service upon receiving an official **signed** Purchase Order from BCMM.**

19. **Evaluation of RFQs**

- 19.1 **Quotations will be evaluated in accordance with the evaluation criteria set out in the Special Conditions of the Request for Quotations.**

- 19.2 Quotations will be evaluated for price and preference using the 80/20 preference points system as follows –

Price	80
BBBEE	20

- 19.3 Unless otherwise stated in the Special Conditions, a contract will be concluded with the bidder who complies with the evaluation criteria, and scores the highest total price and BBBEE points.

- 19.4 Bidders may quote with or without VAT depending upon whether or not they are VAT vendors. In the calculation of price points, VAT shall be removed from the quotation amount of bidders who are registered as VAT vendors, so that financial offers can be evaluated on a comparative basis as a price advantage cannot be afforded to bidders who are not VAT vendors.

20. **Test for Responsiveness**

20.1 **Invalid Submissions**

Quotations shall be invalid if:

- (a) The quotation submission is not sealed when submitted into the tender box.
- (b) The quotation submission is not completed in non-erasable ink.
- (c) The form of offer has not been completed.
- (d) The bidder has been listed on the National Treasury's Register for Tender Defaulters in terms of the Prevention and Combating of Corrupt Activities Act, No. 12 of 2004, or has been listed on the National Treasury's List of Restricted Suppliers and who is therefore prohibited from doing business with the public sector.
- (e) The bidder is prevented from doing business with BCMM in terms of Regulation 38 and 44 of the Supply Chain Management Regulations (MFMA).

20.2 **Non-responsive Submissions**

Quotations will be declared as non-responsive and eliminated from further evaluation in the following circumstances –

- (a) The submission has not achieved the minimum score for functionality as set out in the evaluation criteria, where functionality is applicable.
- (b) Where there are material deviations or qualifications to the RFQ which in BCMM's opinion would –
 - (i) Detrimentially affect the scope, quality or performance of the works, services or supply identified in the scope of works;
 - (ii) Significantly change BCMM's or the bidder's risks and responsibilities under the contract, or

- (iii) Affect the competitive position of the bidder, or other bidders presenting responsive submissions, if it were to be rectified.
- (c) The submission will be declared non-responsive if the bidder fails to adhere to a written request (within the specified period set out in such request) to –
 - (i) Comply with the general conditions applicable to RFQs as contained in the BCMM Supply Chain Management Policy;
 - (ii) Complete and/or sign any declarations and/or authorisations;
 - (iii) Submit items 2 - 3 of the list of returnable documents in Part 2 (section 2.1) of this bid document.
- (d) **The bid will be declared non-responsive in the event that the bidder's tax matters, as verified on the government Central Supplier Database, are shown not be in order, and the bidder fails to ensure that its tax matters are in order within such timeframe as may be required by BCMM in writing.**

21. Clarification of quotation after submission

The bidder must provide clarification of its submission in response to a request to do so from BCMM during the evaluation process. This may include providing a breakdown of rates or prices and correction of arithmetical errors by the adjustment of certain rates or item prices (or both). No change in the competitive position of bidders or substance of the submission may be sought, offered, or permitted.

22. Provide other material

The bidder shall provide, on request by BCMM, any other material that has a bearing on the RFQ submission, the tenderer's commercial position (including notarized joint venture agreements), or samples of materials, considered necessary by BCMM for the purpose of a full and fair risk assessment. Should the bidder not provide the material, or a satisfactory reason as to why it cannot be provided, by the time for submission stated in BCMM's request, BCMM may regard the RFQ submission as non-responsive.

23. Inspections, tests and analysis

The bidder shall, at the request of BCMM, provide access during working hours to its business premises for any inspections, tests and analyses as required for the RFQ.

24. Securities, bonds, policies, etc

If required, the bidder must submit for BCMM's acceptance before formation of the contract, all securities, bonds, guarantees, policies and certificates of insurance required in terms of the conditions of contract.

25. BCMM supplier database

- 25.1 **Bidders must be registered on the BCMM Supplier Database, or meet the listing criteria set out in the BCMM Supply Chain Management Policy, in order to be considered responsive to the RFQ.**
- 25.2 Bidders must be registered within 7 days of being requested to do so, failing which its submission shall be declared to be non-responsive.
- 25.3 It is each bidder's responsibility to keep all the information on the BCMM Supplier Database updated. If any information required (e.g. tax clearance certificate, CIDB certificate, etc) is not valid or has expired, all transactions with the vendor may, in the sole discretion of BCMM, be suspended until such time as the correct, verified information is received.

26. Tax compliance status

- 26.1 **No award shall be made to a person whose tax matters have not been declared to be in order by the South African Revenue Service (SARS).**
- 26.2 **Each party to a consortium, joint venture or partnership must comply with the above.**

27. Declarations and authorisation

Bidders are required to complete all statutory declarations and authorisations in the schedules attached to this RFQ document, failing which the submission may be declared non-responsive.

28. Samples

If the specifications require a bidder to provide samples, these shall be provided strictly in accordance with the instructions set out in the special conditions of the RFQ below.

29. Alterations to tender document

Bidders may not make any alterations or additions to the RFQ document, except to comply with instructions issued by BCMM, or as are necessary to correct errors made by the bidder. All signatories to the RFQ submission shall initial all such alterations. Erasures and the use of masking fluid are prohibited.

30. Objections, Complaints, Queries and Disputes / Appeals in terms of Section 62 of the Systems Act

30.1 Objections, complaints, queries and disputes

Persons aggrieved by decisions or actions taken by BCMM in the implementation of the supply chain management system or any matter arising from a contract awarded in terms of the supply chain management system may, within 14 days of the decision or action, lodge a written objection or compliant or query or dispute against the decision or action.

30.2 Section 62 Appeals

- (a) In terms of section 62 of the Systems Act, a person whose rights are affected by a decision taken by a political structure, political office bearer, councillor or staff member of a municipality in terms of a power or duty delegated or sub-delegated by a delegating authority, may appeal against that decision by giving written notice of the appeal and reasons to the Accounting Officer within 21 days of the date of notification of the decision.
- (b) An appeal shall contain the following:
 - (i) The reasons and/or grounds for the appeal;
 - (ii) The manner in which the appellant's rights have been affected;
 - (iii) The remedy sought by the appellant.

30.3 Lodging of appeals, objections, complaints, queries and disputes relating to this tender

Appeals, objections, complaints, requests for information, queries and disputes must be submitted in writing to the Office of the Municipal Manager, 10th Floor, Trust Centre Building, Cnr of Oxford & North Streets, East London, OR by email, amandaq@buffalocity.gov.za .

1.2 SPECIAL CONDITIONS OF THE REQUEST FOR QUOTATIONS (RFQ)

The special conditions qualify, or are in addition to the general conditions in section 1.1 above. In the event of any ambiguity or inconsistency between the general conditions and the special conditions, the latter shall have precedence.

These special conditions, the general conditions, and the returnable schedules are only required for evaluation purposes, and shall not form part of any contract arising from the invitation to tender.

General Conditions Clause No.	Additions or Variations to General Conditions
Clause 13 & 21 CLARIFICATION OF RFQ SUBMISSION	Where a bidder is requested to provide additional information or clarification of its submission, this shall not be an opportunity for the bidder to bolster its submission in any way, so as to afford it an unfair competitive advantage.
Clause 16 AUTHORITY OF SIGNATORY	The bidding entity must submit a letter of authority on its letterhead authorising the signatory to this RFQ to sign all documents in connection with the RFQ, and any contract which may arise therefrom, on behalf of the bidding entity. The letter of authority must be attached to Schedule A.
Clause 18	After the Service provider has been notified of the Award and signs Letter of Award, the bidder will have to wait for an official signed Purchase Order before commencing with the delivery or rendering of services appointed for.
Clause 19 EVALUATION OF RFQs	RFQs will be evaluated in accordance with the evaluation criteria set out on page 08 of this document.
Clause 23 INSPECTION, TESTS AND ANALYSES	No inspections, tests and analyses shall be required for this RFQ.

RFQ EVALUATION CRITERIA

Each tender submission will be first evaluated on the basis of its functionality as specified in below.

Functionality Points Scoring

The Points Scoring for Functionality is reflected in the tables below. General responsiveness in terms of experience, expertise and methodology will be combined to make 100 %. Bidders who score below 70 % overall will be declared non-responsive and will not qualify to proceed to the next assessment stage.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:

(Bid Number and Description)

in response to the invitation for the bid made by:

(Name of Municipality / Municipal Entity)

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of: _____ that:
(Name of Bidder)

1. I have read and I understand the contents of this Certificate;
2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word “competitor” shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:
 - (a) has been requested to submit a bid in response to this bid invitation;
 - (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
 - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder

6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.
7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - (a) prices;
 - (b) geographical area where product or service will be rendered (market allocation)
 - (c) methods, factors or formulas used to calculate prices;
 - (d) the intention or decision to submit or not to submit, a bid;
 - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
 - (f) bidding with the intention not to win the bid.
8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

MBD 9

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

2.3.3 Project Background

The study area is Mtsotso Station/Silvertown, an informal settlement located in Mdantsane, East London, within ward 11 and 13 of the Buffalo City Metropolitan Municipality's area of jurisdiction. Mtsotso Station/Silvertown is an Informal Settlement consisting of informal structures/ shacks and some vacant land. Mtsotso Station/Silvertown informal settlement is bounded by the Qumza Highway on the North and Eastern Boundary, Reeston on the South and Mdantsane Cemetery on the Western boundary.

The informal settlement is relatively new as the land parcels have been illegally invaded by the inhabitants around 2015.

2.3.4 Problem Statement

The following represents the key issue that has been identified:

- To determine the extent of housing development that the identified land parcels (as illustrated on table 1 above) can contain.
- Identify alternative land parcels which can be developed to cater for any access beneficiaries/ residents.
- Investigate possibility / desirability of high-density housing in order to accommodate all beneficiaries.

2.3.5 Project Objectives

Buffalo City Metropolitan Municipality identified the need to appoint a service provider to assist in the preparation of the required Feasibility Study for Mtsotso Station/Silvertown Informal Settlement to achieve the following objectives:

- Explore the technical feasibility of developing the land parcel for mixed uses purposes based on the principles of integrated human settlement.
- The Feasibility Study must determine if the implementation of the project and the proposed development can be accommodated on the proposed land parcels.

2.3.6 Technical Skills set required for the Feasibility Study

It is anticipated that the following types of service providers and professional services will be required for the project i.e.:

- Town Planning: to undertake Project Management and Concept Development Framework Plan including GIS specialist function for map preparation and database;
- Engineering - Engineering Services, Geotechnical Report, Groundwater Study, Flood Line Assessment, etc.
- Environmental Management: to undertake an Environmental Scoping Report;
- Property Valuation: Privately owned land to be valued (only if the subject properties are found to be suitable and/or adequate to accommodate the planned development proposals);
- Surveyor - to scrutinise Title Deeds regarding any restrictive conditions, servitudes and cadastral issues etc.

To ensure the expedition of the project implementation it is proposed that some activities run concurrently. It is therefore recommended that the professional appointed for the Development Concept Plan also act as the overall Project Manager.

2.3.7 The Scope of Work

In achieving the successful completion of the **MTSOTSO STATION/SILVERTOWN INFORMAL SETTLEMENT FEASIBILITY STUDY: VARIOUS ERVEN IN MDANTSANE**, the following activities / tasks are included in the project programme:

1 Site Assessment

- 1.3 **Market assessment** - to identify demand for a mixed-use development that will potentially alter the predominant land but will include housing for the full range of income groups and housing typologies and densities as well as appropriate non-residential land uses associated with developments of this nature;
- 1.4 **Site assessment** - to determine suitability of the site to cater for above identified demand as well as the technical feasibility of developing a mixed-use type of development;
- 1.5 **Environmental assessment** - Formulation of an Environmental scoping report;
- 1.6 **Traffic and Transport assessment** - to determine needs based on the concept;
- 1.7 **Geo-technical assessment** - The formulation of a Geo-Technical Report (Desktop only);
- 1.8 Scrutinise **Title Deeds** regarding any restrictive conditions, servitudes *etc.*
- 1.9 **Engineering Services Assessment** to include:
 - Availability of bulk municipal water services required to develop the proposed area, with the required capacity to support the proposed development.

- Availability of bulk municipal sewer supply and with the required capacity to support the proposed development. The identification of various suitable types of sanitation options for the development of the area.
- Availability of electricity with the required capacity to support the proposed development.
- Access (Traffic survey excluded) to the project area.

2 Stakeholder Engagement – identify and engage with relevant stakeholders;

3 Planning Proposals

- 3.3 Determine the extent of the developable land
- 3.4 Investigate the possibility / desirability of high-density housing and alternative housing typologies and applying a range of possible higher density residential density scenarios calculate the respective yield of the land parcel.
- 3.5 Formulate a Concept Development Framework Plan that is appropriate to its locality.
- 3.6 Based on the Concept Development Framework Plan, develop a concept layout showing relevant land use proposals as well as any further recommendations.
- 3.7 Identify options for the temporary relocation of all inhabitants on the site while development takes place and explore creative accommodation options for those inhabitants that do not qualify for a housing subsidy.
- 3.8 Taking into account all of the above determine appropriate development phases
- 3.9 Formulate an implementation Plan and Programme.
- 3.10 Implementation and phasing programme with related budget estimates;

It is important to note that all existing documentation in the format of Basic Assessments Reports, Scoping Reports or Feasibility Studies etc which are available for these properties, are to be studied and whatever information is available must be utilized in order to avoid possible duplication. Before any of these documentations are used, permission must be sourced from the relevant property owner to utilize the relevant information.

The following activities are also included:

- Liaising with all relevant National and Provincial Departments to obtain their comments and approval.
- Liaising with Ward Councillors and Ward Committees and submission of written approval of these parties
- Attend monthly meetings and submit monthly progress reports to Buffalo City Municipality
- Public Participation and obtaining support from community structures.
- Liaising with all Municipal Service Departments.

2.3.8 GUIDING DOCUMENTS/LEGISLATIONS

- The Spatial Development Framework Review (2013)
- Buffalo City Zoning Scheme Regulations of 2007
- Spatial Planning and Land Use Management (Act 16 of 2013)
- BCMM Corporate GIS Structures Dot Count
- Housing Needs Register (Beneficiary List)
- Land Identification Study for the Relocation of Infill Areas in Mdantsane, 2011
- Formalisation of Mdantsane Infill Areas, 2010
- Mdantsane LSDF, 2013
- MELD Corridor Framework Plan (1998)

2.3.9 PROJECT PHASING

This section outlines the anticipated activities that the project will consist of per phase:

Phase 1: Project Initiation and finalisation of terms of reference

The project will be initiated through the appointment of Service Providers, agreement and finalisation of the terms of reference and Inception Report, the establishment of the technical project committee.

Phase 2: Development Perspective

All strength, weaknesses, opportunities, threats and constraints relating to the study area will have to be identified including any policy gaps.

Phase 3: Formulation of a Concept plan and a layout

A concept plan will be created, linked to goals and objectives for development within the study area. The concept will be based on principles and guidelines for development within the study area, based on the outcomes to be achieved. The potential residential and associated land use yield must be indicated including different typology options and their potential yield.

Phase 4: Formulation of Draft Report and Submission to Council for Approval

Phase 5: Final Draft Feasibility Report and Concept Plan: X25 copies of Final Feasibility Report (hardcopy); X10 A0 colour copies of Final Feasibility Concept Plan (hardcopy) X1 CD containing electronic copy of Final Feasibility Report and Concept Plan, GIS files in ArcGIS format, AllyCAD (dxf;. dwg; drg or dr4)

2.3.10 ORGANISATION OF WORK

2.3.10.1 Organisational structure and management of the project

The contact person regarding the daily activities and implementation of the project will be the Manager: Settlement Planning and Manager: Spatial Planning who will report via the Senior Manager: City & Regional Planning, to the BCMM Administration and the Portfolio Councillor for Spatial Planning & Development.

2.3.10.2 Technical Task Team

A **Technical Task Team** will manage the technical aspects of the project. The task team will discuss the findings, proposals and recommendations and meet on a monthly basis or as often as required and determined by the Technical Task Team. It is proposed that representation on the Technical Task Team will be as follows:

- City & Regional Planning Division
- Property Management Department
- Transport and Planning Operations Dept.
- Finance Department.
- Economic & Development Agency's
- Infrastructure Services
- Human Settlement Directorate
- Geomatics Division
- Integrated Environmental Management Programme
- Consultant Team
- Any other representative, as determined by the needs of the Technical Task Team.

2.3.10.3 Consultant Team Composition

The composition of the Bidder's Team must have the following expertise, technical capacity and resources to undertake the project:

- *Professional Civil Engineer registered with ECSA*
- *Professional Traffic Engineer registered with ECSA*
- *Professional Environmental Scientist registered with a statutory Environmental Body i.e. the South African Council for Natural Scientific Professions (SACNASP)*
- *GIS Practitioner registered with PLATO as a Geomatics Professional*
- *Professional Geologist registered with South African Council of Natural Scientific Professions (SACNASP)*
- *Professional Land Surveyor / Geomatics Professional registered with South African Geomatics Council (SAGC)*

2.3.11 Project Activities

The following activities need to be undertaken by the service provider:

- Conduct site visits;
- Consult with the various departments regarding their respective plans and activities in the Study area;
- Investigation into the existing planning proposals, current projects and planning initiatives in the area;
- Consult with relevant regulatory authorities;
- Preparation of base maps;
- Prepare draft concept layout plans;
- Prepare and submit a report to Council.

2.3.12 Project time frames

It is anticipated that the duration of this project will be **± 6 months**. The Project Programme must also include a Gantt Chart with clear timeframes and budgets (activities, costs, and phasing). It is also important to note that those activities / tasks, which can run parallel, must be done simultaneously, in order for the project to be completed in the shortest possible time.

2.3.13 Reporting

The consultant will be required to prepare the following general reports:

- An Inception Report must be submitted to the Manager: Settlement Planning after three weeks from the date of the letter of appointment. This first report shall include a detailed work plan and a refined budget utilisation.
 - It is to be noted that the final payment will be 10% of the total bid and will only be payable once the competent authority has made its determination.
- Monthly written summary reports to the Manager: Settlement Planning on progress made, plans for the next phase, constraints and challenges in relation to the project. The reports shall be structured so that the progress and achievements within the project are clearly detailed. Pertinent observations and recommendations should be dealt with in the same manner.
- The Consultant shall on request be prepared to make verbal presentations and participate in workshops related to his/her service contract with BCMM.
- Feasibility report including the draft concept layout plans with the potential yield of erven that can be developed.

Other related matters include inter alia:

- Special reports on topical issues as might be required from time to time.

- The Consultant shall on request be prepared to make verbal presentations.
- All outputs must be forwarded to the Project Manager in advance of meetings.

2.3.14 Services to be provided by BCMM

BCMM will provide the consultant with:

- Access to all relevant personnel for interviews and assist in arranging meetings with departments, etc.;
- Access to Supporting documents;
- BCMM Spatial Development Framework, BCMM Urban Edge Report,
- Land Identification Study for the Relocation of Infill Areas in Mdantsane, 2011
- Formalisation of Mdantsane Infill Areas Study, 2010
- Informal Settlements Upgrading Policy and Strategy, 2014
- Reviews and comments on consultant's reports;
- Monitoring and evaluation of the study and the design of the implementation programme for the project.

2.3.15 Requirements from Service Provider

This Bid Specification calls for a suitably qualified and experienced Service Provider(s) to act as the project manager and to undertake the preparation of the **FEASIBILITY STUDY FOR MTSOTSO STATION/SILVERTOWN INFORMAL SETTLEMENT: VARIOUS ERVEN IN MDANTSANE**.

The Bidder is required to submit a proposal outlining the proposed **methodology, activities, phasing, time frames, composition of the Service Provider team, budget and the anticipated outputs** for undertaking the project as outlined in this Terms of Reference.

To ensure the expedition of the project implementation it is proposed that some activities run concurrently. It is therefore recommended that the professional appointed for the **FEASIBILITY STUDY FOR MTSOTSO STATION/SILVERTOWN INFORMAL SETTLEMENT: VARIOUS ERVEN IN MDANTSANE**., also act as the overall Project Manager.

2.3.16 GIS Standards and Specifications

Service Providers are to supply all GIS data and mapping as per the standards described in **Annexure B**

ANNEXURE “B”

BCMM GIS DATA SPECIFICATIONS

1.0 Format of spatial data submitted to BCMM

All spatial data gathered, produced or acquired by BCMM, or for BCMM by any third party, should conform to formats and standards prescribed by the GIS Unit. All spatial data should comply with the following conditions:

- Software requirements would be a minimum of ArcGis 9.1;
- Spatial data should be saved in ESRI supported spatial formats Geo-databases with attribute fields in attribute tables discussed with City Planning prior to populating it.
- Data should have fully defined coordinate reference systems readable by ESRI software (prj file for shapefiles, for example). If this is not possible, the coordinate reference system should be fully defined in the metadata supplied with the data.
- The spatial reference system to be used should preferably be “un-projected” i.e. a geographic coordinate system based on the Hartebeesthoek 94 datum. If this is not possible, data should be projected to the “Buffalo City Projection”. This is a Transverse Mercator projection with the central meridian being 27 degrees east and based on the Hartebeesthoek 94 datum. Exact details in ESRI format:
 - Projection: Transverse_Mercator
 - False_Easting: 0.000000
 - False_Northing: 0.000000
 - Central_Meridian: 27.000000
 - Scale_Factor: 1.000000
 - Latitude_Of_Origin: 0.000000
 - Linear Unit: Meter (1.000000)
 - Geographic Coordinate System: GCS_Hartebeesthoek_1994
 - Angular Unit: Degree (0.017453292519943299)
 - Prime Meridian: Greenwich (0.000000000000000000)
 - Datum: D_Hartebeesthoek_1994
 - Spheroid: WGS_1984
 - Semimajor Axis: 6378137.000000000000000000

- The use of CAD file formats as a data sharing/ transferring format is discouraged, especially since most CAD packages now have the ability to create ESRI shapefiles, which is the preferred format.
- Consistency and continuity in terms of symbology and labelling are regarded as important since BCMM is striving towards a standardized system of symbolizing and labelling. This is critical for overlaying and comparative analyses purposes.
- For the purpose of this SDF Review one continuous layer for geocoding is required, eg. as lines, points and polygons.

All spatial data should be accompanied with relevant metadata as detailed below.

2.0 Metadata

In order to comply with the Spatial Data Infrastructure Act (Act 54 of 2003), all spatial data for which BCMM is deemed to be the custodian, must have metadata. Capturing/publishing of metadata must also be included in the manual on functions as described in section 14 of the Promotion of Access to Information Act. 2000 (Act No. 2 of 2000).

All spatial data in the Corporate GIS will therefore describe the following metadata elements:

- The date when the data was captured or created
- The time period that this data is relevant to (in case the data is historical or depicts a temporary state)
- Who should be credited with the creation of the data (this could be the author, source, copyright holder, creator or custodian)
- The applicability or purpose i.e. what this data can or should be used for
- The accuracy - spatial accuracy/resolution or largest scale that the data should be used at
- The contact details of the author/custodian
- The distribution rights, for example: details of the copyright owner (if any), specifics of any license agreement relating to the data, indication if the data can be freely distributed.

3.0 Data disclaimers

The service provider (on behalf of BCMM) will include a spatial data disclaimer, along with metadata as prescribed by the Spatial Data Infrastructure Act, whenever sharing spatial data with any other entity or person. The data will be accompanied by a standard letter obtained

from the GIS Unit describing the data, copyrights, permissions and a disclaimer. The disclaimer will read as follows:

1) The data extraction was done on ...(current date)... and the data is current as at the date of extraction or sourcing.

2) The data and information supplied remains the sole property of Buffalo City Municipality and any unauthorized alteration; modification; propaganda; and/or use for gain or otherwise is strictly prohibited.

4.0 Database design

A draft database design should be submitted in Microsoft Word or Microsoft Visio or as a file geodatabase created with ESRI software. In this draft database design, the relevant service provider should:

- list the field names,
- list the field types,
- identify/specify domains (use the domains in the look-up table),
- list domain codes to be utilized (use land use codes available from City Planning),
- identify subtypes,
- list subtype codes to be utilized,
- list default values,
- define field lengths,
- include the full field name in the field alias, if a fieldname is abbreviated
- not use spaces in field names (use underscores instead).

The data naming conventions should also adhere to the requirements of BCMM as outlined below:

5.0 Project sign off process

In line with the provisions described above, it should be noted that any project with a spatial component should follow a prescribed process to ensure that quality spatial data is produced and delivered to BCMM.

Spatial data quality assurance is a stipulation in standard BCMM procurement policy/contractual conditions. Any spatial data produced/used/delivered during any project with a spatial component must comply with the policy requirements laid out in the BCMM GIS Operational Policy.

Payments (final or phased) for a contract/project will be withheld until quality assurance has been performed and the quality of the spatial data found to be adequate. These requirements should be met before a project is finally “signed off” and deemed complete.
