- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

2.3 SCOPE OF WORK

SCOPE OF WORK FOR THE REVIEW AND UPDATE OF THE MUNICIPAL DELEGATION FRAMEWORK AND SYSTEM

STRATEGIC INTENT

2. This submission supports the municipal strategic objectives of promoting good governance, effectiveness and efficiency throughout the municipality and to improve its internal control environment.

BACKGROUND AND MOTIVATION

3. The AGSA external audit for the past 2 financial years resulted in a qualified audit opinion. As the City Manager, I have carefully assessed the audit findings and committed myself to apply a more strategic, holistic and innovative approach to address the root causes affecting the negative audit opinion.
4. The latter is also confirmed by the AGSA when it expressed its concern with the inadequate management of prior year findings and resultant repeat findings as concluded in its Management Report, paragraph 292: *“Our recommendation for the accounting officer is to focus on addressing the **underlying root causes** of these weaknesses, which stem from **deficiencies in the overall control environment and failures in the accountability ecosystem**”.*
5. To this end I assessed the audit outcomes against the organisational operations from a governance and institutional perspective and believe that one of the critical root causes is that the current delegation framework and system are not conducive to a sound operational and administrative environment.
6. I therefore identified the need for a detailed review, update and implement the current municipal delegation framework and system to address the administrative, financial and functional operational requirements of the municipality.
7. The consequences if this need is not addressed will result in the following:
 - 1) Out-dated delegations.
 - 2) Compromised integrity of governance system.
 - 3) Staff not empowered.
 - 4) Service delivery may be compromised.

- 5) Risk of non-compliance.

TENDER STRATEGY

8. The tender strategy to be followed for the review, update and implementation of the current municipal delegation framework and system is:
 - 1) A lifecycle for a period of one year (12 months).
 - 2) The work will be executed on an Indefinite Delivery Contract (Price Agreement) assignment basis which is defined in the AO Guide as follows: *“These contracts are used when accounting officers/authorities need to have ‘on call’ specialised services to provide advice on a particular activity, the extent and timing of which cannot be defined in advance. These are commonly used to retain ‘advisers’ for implementation of complex projects, expert adjudicators for dispute resolution panels, accounting officer/authority reforms, procurement advice, technical troubleshooting, and so forth, normally for a period of a year or more. The accounting officer/authority and the firm agree on the unit rates to be paid for the experts and payments are made on the basis of the time actually used.”*

TENDER OBJECTIVES

9. The objectives for the review, update and implementation of the current municipal delegation framework and system would be to:
 - 1) Modernise the existing delegation framework and system.
 - 2) Consolidate fragmented delegation frameworks into a package of frameworks.
 - 3) Capacitate delegates.
 - 4) Continuously maintain (all inclusive) system of delegations, as prescribed by various legislation.

TENDER OUTCOMES

10. The following outcomes will be obtained from the review, update and implementation of the current municipal delegation framework and system:
 - 1) Assist officials in the discharge of their administrative responsibilities.
 - 2) Maximise administrative and operational efficiency.
 - 3) Empowered employees.
 - 4) Segregation of duties.
 - 5) Strengthened accountability.
 - 6) Effective and efficient service delivery.
 - 7) Adequate checks and balances.

SCOPE OF WORK

11. The scope of work would be to review, update and implement the current municipal delegation framework and system, inclusive of the following:
 - 1) Part A – Administrative delegations aligned to legislation, issued as per MSA section 59 and MFMA section 59.
 - 2) Part B – Administrative Functional and Operational delegations, issued as per MSA section 59 (aligned to relevant Operations/Policies).
 - 3) Part C – Finance delegations, issued as per MFMA section 79.
 - 4) Part D – Finance delegations linked to financial thresholds (transactional delegations), issued as per MFMA section 79.
 - 5) Part E - SCM delegations, issued as per MFMA section 79 read with SCM Treasury Regulations 4 and 5.
12. Irrespective of the format, the following **MUST** be considered when designing the delegation framework:
 - 1) Glossary of terms and abbreviations
 - 2) Context
 - 3) Principles
 - 4) Objectives and conditions
 - 5) Approach
 - 6) Application
 - 7) Maintenance and review
 - 8) Implementation
 - 9) Governance and regulatory framework
 - 10) Impact when executing delegations
 - 11) Delegation framework
 - 12) Internal control and risk management
 - 13) Compliance, reporting, monitoring and evaluation

14) Capacity development

15) Form control.

13. The following format should be considered when designing the delegation tables:

- 1) Item number - Each delegation has been numbered to reference the appropriate delegation.
- 2) Section heading- Each line as per the relevant legislation headings or specific function.
- 3) Mandate - This column refers to the specific legislative mandate and is organised in the sequential order of the relevant legislation or action if related to functional delegations.
- 4) Cryptic description of the power of authority - This column contains an extract of the power or authority as encapsulated in the relevant law or policy.
- 5) Delegation route - Depending on the mandate, where relevant, distinguish between different activities in exercising a delegation, namely, to initiate, process, recommend, approve, execute, and monitor.
- 6) Post holder - This indicates the post level to which an activity is delegated, as well as the component where relevant.
- 7) Frequency - Indicates, where relevant, the prescribed or required frequency/timeline requirements.
- 8) Limitations and conditions - The execution of delegations is subject to compliance with the corresponding limitations and/or conditions. This forms part of the system of checks and balances (controls) that ensures that delegations are exercised in a responsible and accountable manner and are enforceable by law.
- 9) Remarks - Guiding information, not enforceable by law.
- 10) Risk - Indicates the risk impact on exercising the authority and differentiates between:
 - i. Limited: Restricted/small impact on the Municipality internally. The timeframe of the impact would generally be short-term.
 - ii. Moderate: Impact is more substantial on the Municipality internally but not big enough to be considered extensive. The timeframe of the impact would generally be medium-term.

- iii. Extensive: Major impact on the Municipality internally and externally on the whole of Government. The timeframe of the impact would generally be long-term.

PROFILE OF SERVICE PROVIDER

16. The review, update and implementation of the current municipal delegation framework and system requires legal and governance acumen to research the legal framework as well as processes related to the execution thereof due to the continuous changes in the organisational and legislative environment.
17. It is evident that the depth and construct of delegations needs to go beyond initial basic thinking in the sense that:

- 1) The wide range of administrative, financial, SCM, and functional legislation needs to be consulted to broaden the connectivity between administrative, financial and functional delegations.
 - 2) Job descriptions of the municipal macro- and microstructure elevated the substance and content that needs to be attached to the relevant powers.
 - 3) Newly developed standard operating procedures need to be accommodated within the delegation framework and visa-versa.
18. Taking the aforementioned into account, it is clear that the specialised resource(s) will be required to:
- 1) Be familiar with the organisational environment and business of the Municipality.
 - 2) Have performed the same work the past.
 - 3) Be up to date with new legislative and governance developments within Government.
 - 4) Have a combination of legal, public administration, public management, public sector governance, public sector policy development and practical experience.
 - 5) Have designed public sector related delegation frameworks and systems.
